## PETITION

To the PRESIDENT And THE CONGRESS  
Of The UNITED STATES:

I respectfully represent the following:

1. That I am a native American of Scotch-Irish descent;
2. That Zionist Jews are communists and that they plan the destruction of our republican form for government;
3. That they initiated the two world wars for the purpose of establishing a Zionist Empire, and that they plan a third one;
4. That N. M. Rothschild & Sons of London, England, are the financial backers of the Zionists, and that Kuhn, Loeb & Co., J. P. Morgan & Co, and other New York international bankers are their agents; and
5. That the firm of N. M. Rothschild & Sons and their agents plan to establish a Zionist Empire to supplant our government.

I submit the hereinafter stated facts in support of these charges.

WHEREFORE, I petition you to enact appropriate legislation to protect our government, and to punish the traitors.

Respectfully,

GEO. W. ARMSTRONG

June 20, 1949.

# 1.

## ROTHSCHILD MONEY TRUST AND PALESTINE

*“In our day the power which has replaced that of the rulers who were liberal is the power of Gold . . . Whether a State exhausts itself in its own convulsions, whether its internal discord brings it under the power of external foes--in any case it can be accounted irretrievably lost; IT IS IN OUR POWER. The despotism of Capital, which is entirely in our hands, reaches out to it a straw that the State, willy-nilly, must take hold of; if not--it goes to the bottom.”*  
--Protocol 1.

During the Napoleonic war William IX, Landgrave of Hesse, was compelled to flee his country. He was one of the richest men of the world at that time having a fortune estimated at \$40,000,000--apart of which was earned from hiring troops to the British to suppress the American revolution. He entrusted £600,000 for safe keeping with Amschel Rothschild of Frankfurt on the Main, a Jewish rabbi and coin and junk dealer. Rothschild founded a private banking partnership with his five sons under the name of M.A. Rothschild & Sons and established private banks in Berlin, London, Paris, Vienna and Naples.<sup>1</sup>

### ROTHSCHILD WILL

Amschel Rothschild died in 1812, leaving a will by which he provided for a perpetual family partnership, which has been the model for the succeeding heads of the firm. This will provided that the eldest son of the eldest son should be the manager of the firm; that there should be intermarriage of cousins; that the fortune should never be distributed, and no public report ever made of it. In obedience thereto there never has been any distribution

---

<sup>1</sup> Jewish Encyc., Volume 10, p. 499, et seq.

of the estate nor any report of it, and the family fortune has been preserved by the intermarriage of cousins.

### N. M. ROTHSCHILD & SON

Nathan Rothschild, Amschel third son, was sent to London. He invested £800,000, in the East India Company financed Britain in that country's wars, financed the British purchase of the Suez Canal, bought the controlling interest in the Bank of England, and organized the London branch into a partnership under the name of N.M. Rothschild & Son. He died in 1836 and left a will patterned after that of his father. We do not know the extent of his fortune at the time of his death. He boasted that he had increased the fortune 2500 times. If true, it must have been in excess of ten billion dollars.<sup>2</sup>

The wealth of these two partnerships can not be estimated, even in this country, for it is hidden under various and numerous names. It has been held intact and for more than 100 years has multiplied by compound interest, stock market operations, numerous panics and wars. It must approximate one-half of the wealth of the world, apart from the wealth of the Dead Sea.

The Rothschilds virtually own our country and the British Empire. Their trust and insurance companies and banks own the greater part of our bonds; we are their debt slaves. The slavery of the British is more complete for their bank, railroads, hotels, etc., have been sold to the government for its bonds. A hundred years or more will be required to pay these enormous debts.

---

<sup>2</sup> "The Rothschilds, Financial Rulers of Nations," p. 167, et seq.

## WORLD POWER

Benjamin Disraeli, Jewish Prime Minister of the British Empire, wrote “Coningsby”, a book describing the activities of this firm. Nathan was portrayed as “Sidonia, 1st” and his son Lionel as “Sidonia, 2nd.” Mr. Disraeli claimed at that time--more than 100 years ago--that the Rothschilds financed every country in Europe and that the Jews ruled them; that the real rulers were not the kings and potentates that posed as such, but that they were their Jewish advisers. That was true then and it is true now. Their system of government was state loans and the bribery of corrupt rulers.<sup>3</sup>

## LIONEL ROTHSCHILD

Nathan's son, Lionel, was elected three times to the House of Commons and three times refused to take the Christian oath of office upon a Bible containing the New Testament; he was finally admitted without it, and later made a baron. His son, Nathan II, was elevated to the peerage and became the first Lord Rothschild and the first Jew to hold such a title. He co-operated with Theodore Herzl in the organization of the Zionist movement and was one of the assembly that adopted the Protocols. He was governor of the Bank of England and many other institutions.<sup>4</sup>

## JEREBOAM ROTHSCHILD

Jereboam Rothschild of Paris, France, was the last known eldest son of the eldest son of Amschel Rothschild, and therefore the head of M.A. Rothschild & Son. He assumed the name of Georges Mandel, and is reported to have been killed by the Germans while a prisoner. He was Clemenceau's adviser at Versailles, and was a member of the cabinets of Premiers Blum, Deladier, and Reynaud--all of who were witnesses against Marshall Petain, the hero of Verdun.

---

<sup>3</sup> “Coningsby,” p. 180-1

<sup>4</sup> Jewish Encyc., Vol. 10, p. 501-2

## AMERICAN BRANCHES

The known American representatives of the Rothschilds are Kuhn, Loeb & Co., and J.P. Morgan & Co.; no doubt the other international banks have some connection with them. Kuhn, Loeb & Co. financed Lenin and Trotszky, and Morgan & Co. financed the British, in the first world war. These two private banking firms control several of the principal banks and trust companies of New York City, and our principal railroads and industries.

## ENGINEERED PANICS

This great money power is responsible, directly or indirectly, for every financial panic that we have had since 1873--and probably those prior thereto. The panic of 1873 resulted from the demonetization of silver. It is reported that this was accomplished through the Bank of England and by bribery. The panic of 1893 resulted from the bankruptcy of the firm of Baring Brothers, which the Rothschilds brought about for the purpose of eliminating a rival. The panic of 1907 was brought about by the New York banks for the obvious purpose of establishing a central banking system.

The Rothschild power has ruled America from the beginning of the Roosevelt New Deal Administration. It is responsible for the numerous New Deal agencies and for the enormous public debt which was wholly unnecessary. The war could have been financed with currency as well as bonds. In that case we would be a solvent, prosperous nation, instead of a bankrupt one.

The President and the Congress still have the power to partially remedy the great wrong that has been perpetrated against the American people. They can provide for the gradual retirement of these bonds by the issuance of currency. They should at least establish a price and wage level that will enable us to pay our debts and taxes.

## THE ARCH ENEMY OF CHRISTIAN CIVILIZATION

The Rothschild money power is the arch enemy of our Christian civilization. It is responsible for the establishment of the gold standard in the first instance; for the demonetization of silver; for the restoration of the gold standard following World War I through its agent Thos. W. Lamont, chairman of the Brussels Financial Conference; for the establishment of our Federal Reserve System through its agents, Paul Warburg of the Kuhn, Loeb & Co., and Davidson of J.P. Morgan & Co.; and for the establishment of the banking systems of numerous countries of the world through its agent E. W. Kemmerer. Through the gold standard and the banking systems, it has established prices and wages and the economy of the peoples of the world.

The Rothschild money trust is responsible for both of our world wars, which it brought about for booty and for the purpose of establishing a Zionist empire, and which have also added enormously to its power. It provoked us into the first world war by sinking the ship Lusitania, and into the second by the destruction of our Pearl Harbor fleet. It sought to establish its empire through the League of Nations but failed because we refused to join it. It seeks to establish it through the United Nations, and if it again fails will have a third war. If it succeeds, we will lose our government and our liberty.

The immense power of the Rothschild money trust was pledged by Lord Rothschild to the Zionist cause at its convention in Basel, Switzerland, in 1897. The program for the establishment of this empire is set out in detail in the Protocols which were then and there adopted. The Rothschild money power is still financing the Zionist movement. It financed the invasion of Palestine and the undeclared war against the British. There will be no peace until this power is destroyed or its objective accomplished.

## ROTHSCHILDS AND OTHER ZIONISTS OWN MINERAL WEALTH OF DEAD SEA

The value of the minerals of the Dead Sea is estimated at five trillion dollars. This estimate appears to be excessive but it is supported in part by the report of the Crown Agents of the British Colonies entitled, "Production of Minerals from the Waters of the Dead Sea," page 2. It is alleged that all copies of the booklet containing this report were destroyed except those in the British Museum, Colonial office, and House of Commons. This official report estimates the minerals, except oil, in 1925 as follows: Magnesium Chloride, 22,000 tons, value 600 billion dollars; Potassium Chloride 20,000 tons, value 75 billion dollars; other minerals valued at 1,200 billion dollars, or a total of about three trillion dollars, exclusive of oil.<sup>5</sup>

This enormous value staggers the imagination. I am unable to speculate on the effect on the human race if the Zionists gain undisputed possession of it, or if it should be devoted to public use. The British Zionists claim that they will hold the "keys of industry" and control the destiny of the human race.

This huge concession was first granted by the British Colonial Secretary, to the Russian Zionist Moise Novemeysky in 1923 and finally granted on January 1, 1930, by the British House of Lords to "Palestine Potash, Limited," a joint stock company. This company, so far as known, is composed wholly of American, British, and Russian Zionist Jews. Mr. H.H. Klein, a patriotic Jew, states that there are 1500 American stockholders; that they organized themselves into a corporation known as "Palestine Associates, Inc.," with a capital of \$400,000, and that this group owns 51,000 shares of the parent company. He states that Moise Novemeysky owns 30,000 shares; Cazenove Nominees, Ltd, owns 221,075 shares; Palestine Economic Corporation, dominated by the Warburgs, owns 45,111 shares, and that the Anglo Palestine Bank Nominees own 42,935 shares. He says also that Palestine Potash, Ltd. has three American directors, viz., Benjamin Brodie, Julius

---

<sup>5</sup> "The Palestine Mystery," pages 12 and 13.

Simons and Robert Szold, whose brother is a member of the banking firm of Lehman Bros.

Mr. Klein says of the British concession and the Protocols:

“The aim of Zionist leaders was to establish a Jewish State in Palestine. Why? Was it in order to fulfill the plan outlined in the Protocols of the Learned Elders of Zion for world conquest; or was it to protect the concession for the exploitation of all the chemical wealth in the Dead Sea in Palestine, estimated at five thousand billion (five trillion) dollars?

“If it is for the purpose of world conquest, then Jews have been fatally deceived, because Zionist leaders and their financial backers maintain that the Protocols are a forgery. If it is for the purpose of extracting chemical mineral wealth from the Dead Sea, then Jews have been shamefully imposed upon because that purpose has never been mentioned by Zionist leaders.

“If the Protocols are a ‘forgery,’ whatever that may mean, it is the most remarkable ‘forgery’ every perpetrated, because every step outlined in that amazing document of over 30,000 words, is an accomplished fact. This so-called ‘forgery’ was published fifty years ago [90 years ago, now]. At that time, the value of the chemicals in the Dead Sea was known to the financial backers of Theodor Herzl, who is known as the ‘father’ of Zionism.”

The financial backers of Theodor Herzl were Lord Rothschild and other rich Jews. Mr. Klein confirms the opinion expressed by Henry Ford in “The International Jew,” viz: That the Protocols explain the current history. There can be no reasonable question about the validity of the Protocols and the fact that they were adopted by World Zionist Jewry and that they represent the plan of the Zionist Jews for creating a World Empire. The first and second World Wars were for that purpose and so, likewise, was the

Zionist invasion of Palestine. That was also the purpose of the League of Nations and the United Nations; all Zionist, manipulated enterprises.

Mr. Klein says further that the “American Group,” owners of 51,000 shares of Palestine Potash, Ltd., incorporated in 1930 under the name of “Palestine Associates, Inc.,” and that “at least seven of the directors of this corporation are members of the American Jewish Committee.” He says that ex-Governor of New York Herbert H. Lehman has been honorary head of Palestine Economic Corporation for many years and that this corporation “owns banks, water companies, land holding companies, electric power companies, hotels, and agricultural corporations in Palestine.” He adds that these facts have been concealed from the Jews and that they have been used as pawns by the Zionist leaders. Henry Morgenthau is now at the head of it.

The “Balfour Declaration” was made in a letter from Lord Balfour to Lord Rothschild who was a member of the Zionist International Conference at Basel, Switzerland, in 1897 that adopted the Protocols. This same Lord Rothschild was also a member of the British House of Lords that gave this huge wealth to Palestine Potash, Ltd. The Rothschild interests are at the head of political Zionism. Their position in our government and financial system is such that they can bring about deflation and a third World War. If the Zionists acquire the mineral wealth of Palestine it will be the end of the British Empire but the solid foundation of the Bolshevik Empire.

If Palestine has one-tenth of its estimated mineral value it will enable the Zionists to control the destiny of the peoples of the world. The Zionist invasion of Palestine was a gigantic steal and an infamous outrage against Christian civilization. Under present circumstances it means a third World War and that the new state of Israeli will line up with the Bolsheviks. The only way to avoid it and to assure permanent peace is to destroy the Rothschild money trust, alias Zionist Wall Street. It is indeed the best way to restore the solvency of our country and the world, and constitutional government.

The “Balfour Declaration” to Lord Rothschild and the gift of this fabulous wealth to him and his fellow Zionists is evidence that he and they controlled the British Empire. If the British Government were authorized to give it to the Zionists they had the power to keep it, or to give to America as security for our donations, or to the United Nations for the preservation of world peace. They have given it to the war promoting Zionists for the obvious purpose of promoting communism. The British appear to regret their frightful error and to want to curb the aggression of the Zionists, but President Truman supports the Zionists in preference to the British.

### BALFOUR DECLARATION

This declaration was made in a letter by Lord Balfour, Secretary of Foreign Affairs of the British Government, to Lord Rothschild of London. It was dated November 2, 1917, and is as follows:

“His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine or the rights and political status enjoyed by Jews in any other country.”<sup>6</sup>

This letter, inoffensive and evasive as it appears; has been a Pandora's Box for the world. Its immediate effect was the destruction of the Russian government by the Bolsheviks and the elimination of Russia from the First World War. This was obviously the purpose of the Kaiser in granting Lenin and associates the right of passage through Germany, and this was also obviously against the interest of the British.

Obviously also the British got nothing in return for their promise, unless they got America into the war by reason of it; (it is claimed that such was

---

<sup>6</sup> “History of the Jewish People,” p. 731

the case) because it resulted in the overthrow of the Czarist government and the elimination of an ally. It has been the cause of friction between the (semitic) Arab and the Jew, and dissatisfaction on the part of both.

## 2.

# THE PROTOCOLS AND ZIONISM

*“And the weapons in our hands are limitless ambitions, burning greediness, merciless vengeance, hatred and malice.”*

*--Protocol 9*

The Protocols were adopted at an international conference of Jewish rabbis and elders in 1897. They were published by Professor Sergyei Nilus of Russia in 1905 and translated into English and published by Victor Marsden, correspondent of The Morning Post (London). They have been republished in most of the countries of the world. It is reported that all Russian copies were destroyed during the Kerensky regime and that thereafter the possession of a copy in Russia was punishable by death.

The Jews claim that the Protocols are spurious, and cite as evidence of the fact, the judgment of the trial court at Berne, Switzerland. The trial judge was a Jew named Levy. It was a court of their own selection and obviously biased. The trial did sustain their contention but the case was appealed, and reversed by the appellate court. the reported evidence utterly fails to establish the Jewish claim. The final judgment acquitted the defendants of the charge of libeling the Jews by the publication and distribution of the Protocols, and inferentially established their authenticity.

The Protocols throw a flood of light upon the history of the world since their publication. They explain our two world wars, the League of Nations, Dumbarton Oaks, Bretton Woods, the San Francisco conference and many other important events such as the establishment of our Federal Reserve banking system, the New Deal, and the persecution of the 30 alleged seditionists. They reveal the purpose of the communist scheme for the

destruction of existing governments and the establishment of a Zionist world government.

### ALL JEWS ARE NOT COMMUNISTS

It should be here stated that not all Jews are communist, but practically all of the Jewish political and religious leaders are either socialist or communist. It was the communist type of Jew that crucified Christ and that overthrew the Russian Czar and that has sought to undermine and destroy our constitutional form of government. It is estimated that 85% of Jews are communists.

In the fall of 1944 a protest meeting was held by the reformed Jews of the city of Houston, Texas, and they were denounced by the Zionist leader, the late Rabbi Wise of New York, as traitors to their race. Even in the days of Christ there were many Jews who were his followers and believed in his divinity, but he was nevertheless crucified. In 35 A.D. the Jewish historian wrote:

“Now there was about this time Jesus, a wise man, if it to be lawful to call him a man; for he was a doer of wonderful works, a teacher of such men as receive the truth with pleasure. He drew over to him both many of the Jews and many of the Gentiles. He was (the) Christ.”<sup>7</sup>

### PROTOCOLS REVEAL WORLD EMPIRE PLAN

The Protocols reveal the plan of the Zionists for the establishment of a world empire with an autocratic Zionist King. They set out in Protocol 24 the qualifications of their proposed king and the method of selecting him and his successor. They boast that they control the gold supply of the world, the press, and the governments of the world. They say also:

---

<sup>7</sup> Josephus, p. 535.

“We have got our hands into the administration of the law, into the conduct of elections, into the press, into liberty of the person, but principally into education and training as being the cornerstones of a free existence.”<sup>8</sup>

This program was adopted about 52 years ago [122 years as of 2019] and the power of the Jews has increased enormously since then. They still have their hands in the conduct of elections, the press, the liberty of the person, and education.” Moreover, they now control the radio, [television], the cinema, the railroads, our principal industries, both of our political parties, [and Big Tech].

#### ZIONISTS TRANSGRESS MOSAIC LAW

In Protocol 9 they frankly and brutally state:

“And the weapons in our hands are limitless ambitions, burning greediness, merciless vengeance, hatreds and malice.”

These are not the sentiments of the ten commandments and the Mosaic law. They are the doctrines of the Zionists and of the Talmud.

In this same Protocol 9 they say that they are seeking through various and sundry agencies

“to overthrow all established form of order. By these acts all States are in torture; they exhort to tranquility, are ready to sacrifice everything for peace; but we will not give them peace until they openly acknowledge our international Super-Government, and with submissiveness.”

---

<sup>8</sup> Protocol 9.

That is the situation today: that is the purpose of Stalin and his Bolshevik government; and that is the end in prospect for all Europe and Asia. Let us hope that America will escape.

The Protocols are consistent with the teachings of the Talmud, the authenticity of which is not denied; they are indeed a complement to the Talmud. The Talmud expresses Zionist “limitless ambition, burning greediness, merciless vengeance, hatreds and malice.” The Protocols state the plan of attaining this “limitless ambition,” gratifying this “burning greediness,” and of satisfying this “merciless vengeance, hatred and malice.” The Talmud expresses the hopes and purposes; the Protocols, the means for bringing them about.

## PALESTINE AND ZIONISM

The international Federation of Jews, or Congress of Jews, was organized by Theodor (Binyamin Ze'ev) Herzle, (author of “Jews’ State,”) in August 1897.<sup>9</sup> It was this convention that adopted the Protocols as the official plan of World Jewry. There were 200 delegates present, all of whom were Zionists. The 6th Annual Congress was held at Basel in August 1903, which was attended by 500 delegates. We have no record of any of the annual congresses between 1897 and 1903, or of subsequent congresses. The proceeding of these international congresses are always secret. No one except the Jews knows anything about them--who attends them, how the delegates are selected, or what they do.

## ORIGINAL HERZL PLAN

Herzl's original plan was to nationalize the Jews and it appears to have been immaterial to him whether they were settled in Palestine or some other country. He reported to the 6th Zionist Congress that the British Colonial

---

<sup>9</sup> “History of the Jewish People,” p. 706-7.

Secretary offered them a stretch of land in Uganda in East Africa for the “purpose of colonization under a charter of complete internal economy,” but the congress rejected it.<sup>10</sup>

Baron Hirsch bought vast tracts of land in Argentina and other countries at a cost of \$45,000,000 for the settlement of Jewish refugees. A few of them took advantage of the generous offer and “went out to the colonies but soon tired and moved into nearby cities.”<sup>11</sup>

Herzl soon found that the Jews did not want any country except Palestine. Zionist societies were organized throughout the world and a “Jewish national fund” was established for the purchase of Palestine.<sup>12</sup> He attempted to acquire it by purchase from the Sultan of Turkey who refused to sell.

### BASEL PROGRAM

The nearest approach that we have to an admission by responsible Jews that the Protocols are authentic is the statement by Margolis and Marx, authors of “The History of the Jewish People,” as follows:

“These two things (the existence of Jewish nationality and the need for a Jewish state) were taken for granted by the two hundred delegates who were all Zionists. It remained to define Zionism and to create the organization for bringing it into effect. A platform was adopted--the ‘Basel Programme’--the first paragraph of which read: ‘Zionism aims at establishing for the Jewish people a publicly and legally assured home in Palestine.’ Thus Zionism stepped out into the open, announcing itself as a political movement with a definite object to be achieved only through political negotiations.”

<sup>13</sup>

---

<sup>10</sup> “History of the Jewish People,” p. 711

<sup>11</sup> “Stranger Than Fiction,” p. 336

<sup>12</sup> “History of the Jewish People,” p. 707

<sup>13</sup> Ibid, p. 707

There is nothing in the elaborate history about this important “Basel Programme” except this mere reference to it. The “Protocols of the Elders of Zion” constitute the “Basel Programme” and “platform.”

The authenticity of the Protocols has been confirmed by the Zionist A.L. Kubowitzky in his history of the “World Jewish Congress” entitled “Unity in Dispersion,” (Diaspora) published in 1948. He shows that the World Jewish Congress really took shape in 1840 when the Jewish Board of Deputies in Britain and France became politically powerful and thereafter when the B’nai B’rith was established “for the purpose of uniting the Jews of the world into one body.” He boasts that Jewish power became absolute in the United States with the “formation of the American Jewish Committee, the New York Kehillah and the establishment of the American branch of the B’nai B’rith.

#### JEWS CONTROLLED EUROPE BEFORE THEY WERE DISENFRANCHISED

It was about 1840 that Benjamin Disraeli, a Sephardic Jew, was Prime Minister of the British Empire when the British Jews were permitted to vote and hold office. But the Jews were well established in power throughout Europe even before they were enfranchised as a result of their money and bribery. Mr. Disraeli graphically describes their station in his book “Sidonia,” a fictional history of Lionel Rothschild, published in 1844. Sidonia (Rothschild) says:

“You never observe a great intellectual movement in Europe in which the Jews do not greatly participate. The first Jesuits were Jews: that mysterious Russian diplomacy which so alarms Western Europe is organized and principally carried on by Jews; that mighty revolution which is at this moment preparing in Germany, and which will be in fact a second and greater Reformation, and of which so little is as yet known in England, is entirely developing under the auspices of Jews, who almost

monopolize the professorial chairs of Germany; Neander, the founder of Spiritual Christianity, and who is Regius Professor of Divinity in the University of Berlin, is a Jew. Benary, equally famous, and in the same university, is a Jew. Wehl, the Arabis Professor of Heidelberg, is a Jew . . .

“I resolved to go myself to St. Petersburg. I had on my arrival an interview with the Russian Minister of Finance , Count Cancrin; I beheld the son of a Lithuanian Jew. The loan was connected with the affairs of Spain; I resolved on repairing to Spain from Russia. I travelled without intermission. I had an audience immediately on my arrival with the Spanish minister. Senor Mendizabal; I beheld one like myself, the son of a Nuovo Cristiano, a Jew of Arragon. In consequence of what transpired at Madrid, I went straight to Paris to consult the President of the French Council; I beheld the son of a French Jew, a hero, an imperial marshal, and very properly so, for who should be military heroes if not those who worship the Lord of Hosts? . . .

“We fixed on Prussia, and the President of the Council made an application to the Prussian minister, who attended a few days after our conference. Count Arnim entered the cabinet, and I beheld a Prussian Jew. So you see, my dear Coningsby, that the world is governed by very different personages to what is imagined by those who are not behind the scenes.”

Disraeli says of Rothschild:

“No minister of state had such communication with secret agents and political spies as Sidonia (Rothschild). He held relations with all the clever outcasts of the world. The catalogue of his acquaintance in the shape of Greeks, Armenians, Moors, secret Jews, Tartars, Gypsies, wandering Poles and Carbonari, would throw a curious light on those subterranean agencies of which the world in

general knows so little, but which exercise so great an influence on public events.”

## ROTHSCHILDS DECLARED FIRST WORLD WAR

In 1914 when Germany initiated the first World War, it was not the Kaiser who declared war; it was his premier, Bethmann Hollweg, a direct descendant of Amschel Rothschild, and his Jewish cabinet. The Kaiser was only a conceited figurehead. All of the members of the cabinet were Jews. The first World War was for the wealth of Palestine and the creation of a Zionist Empire. The Zionists probably would have obtained Palestine and their League of Nations even if Germany had won.

They were probably promised it. The Kaiser gave the Lenin-Trotsky party permission to cross Germany and as a result he eliminated Russia and substituted America as an ally and lost the war. The war was not begun to avenge the murder of an Austrian duke; that was but a flimsy excuse. It was begun for the establishment of a Jewish empire in pursuance of the plan of the Protocols. The League of Nations was only an intermediate step in that direction. It has been supplanted by the United Nations which in turn will likely be supplanted [or supplemented] by the Atlantic Pact.

## WAR WAS FOR CREATION OF ZIONIST EMPIRE

Nor did we enter the war for the purpose of preserving the freedom of the seas; that was also only a flimsy excuse. We entered it for precisely the same purpose, viz: the establishment of a Zionist empire and Palestine. The Zionists double-crossed the Kaiser and they double-crossed us. Bear in mind also that the double-cross is a part of the code of the Zionist, *“the word should not agree with the deeds of the diplomat.”* It should be remembered that the Rothschilds and their agents are the head and front of Zionism. It was to a Lord Rothschild that the Balfour Declaration was made, and a Lord Rothschild is at the head of the British labor party.

The Protocols are the moral and political code of Zionists. They represent the plan by which the Zionists propose to establish their kingdom and to govern it. They are substantially the religious code of the Zionists; they are based on the Babylonian Talmud and in pursuance of it; and they explain the wars and depressions that have occurred since their adoption in 1897.

## ZIONISM

ZIONISM is an international militant communist organization with a religious name. It is strictly a Jewish organization dedicated to the establishment of a Zionist empire. It is financed by the Rothschild money trust.

Zionism is Judaism, and Judaism is communism. If Zionism can be classed as a religion then communism should be so classed. Zionism is based on the false doctrine that the Jews are a superior people and are entitled to rule the world and to own its wealth. It is based on the Babylonian Talmud; it is the result of the teachings of the rabbis and their Talmud.

In 1933 the Zionists at their convention in Amsterdam, Holland, declared an economic war on Germany which was not successful. Henry Morgenthau was the American head of the Zionists. He was President Roosevelt's bosom friend and attended some of the conferences between Roosevelt and Churchill. At the Quebec conference they announced the Morgenthau Plan of destroying Germany as an industrial nation. This plan was carried out by General Ike Eisenhower with the approval of President Truman.

The Zionist influence in our government at the time of the Pearl Harbor attack and since, WAS a subject of grave concern to the American people. The Zionists Henry Morgenthau, Samuel Rosenman, Felix Frankfurter and Bernard Baruch were President Roosevelt's cronies and advisers. They staffed his bureaus with Jewish communists. It was a Jewish communist administration that preceded and followed the Pearl Harbor attack, but the

Barkley committee did not investigate that subject; not a line of testimony gives even a hint of it.

Jewish refugees moved into the American zone of Germany where they had our protection. General Sir Frederick Morgan, British UNRRA chief, said of them that they were "*well clothed, well fed and fat*" and were evidently well financed by some outside agency. For this offense the Zionists had General Morgan discharged, but Lehman was compelled to reinstate him. By executive order or edict President Truman forced the Christian Germans to vacate their homes and turn them over to Jewish refugees.

The Zionists wanted us to turn over one-fourth of our flour to UNRRA for export to Jewish refugees. According to the Associated Press of March 30, 1946, Mr. Morgenthau, the Zionist leader, made this request of Secretary Anderson who refused it. He appealed from this decision to President Truman who gave it sympathetic consideration. Truman issued a Rooseveltian directive or edict ordering American millers to debase their flour in order to provide more of it for UNRRA.

### MORGENTHAU PLAN

The Morgenthau Plan was intended to destroy the German nation and people in order that they may not prevent the spread of Bolshevism and the creation of a Zionist empire as projected by the Talmud and the Protocols. Mr. Morgenthau was at that time a member of the American Jewish Committee and at the head of the American Zionists. A restored Germany would nullify their victory. Germany and the German people are the strongest bulwark protecting Europe and Asia from Communism and therefore the Zionists decreed that they must be destroyed. They are being exterminated in accordance with the Morgenthau-Zionist program.

## CONDITIONS IN GERMANY

The German relief agency, created by the Russians, reported conditions in Germany at the beginning of the winter of 1945-46 as follows:

“The people hunger. They hold only the immediate present responsible for their condition. They are without the energy to trace the links of causes. They have even forgotten Hitler. Beyond the immediate present their power to reproduce even memory does not reach. There is growing, as though by psychological compulsion, a mass hysteria with a thousand different symptoms of drug addiction, drunkenness, perversities, sadism, murder, infantilism.

\* \* \*

“The situation is reaching a generally psychopathological state, through chronic hunger. We are seeing aberrations such as were previously known only among stranded and starving sailors in lifeboats, or thirsting persons forgotten by caravans in desert sands. It is increasingly impossible to discover in the masses of the people, opinions. They have only animal urges.

“The explanation of this mass phenomenon, the mental and spiritual paralysis, is physical. They are emaciated to the bone. Their clothes hang loose on their bodies, the lower extremities are like the bones of a skeleton, their hands shake as though with palsy, the muscles of the arms are withered, the skin lies in folds and is without elasticity, the joints spring out as though broken . . . The number of still-born children is approaching the number of those born alive, and an increasing proportion of these die in a few days. Even if they come into the world of normal weight, they start immediately to lose weight and die shortly. Very often the mothers cannot stand the loss of blood in childbirth, and perish. Infant mortality has reached the horrifying height of 90 percent.”<sup>14</sup>

---

<sup>14</sup> Congressional Record, March 29, 1946, p. 2865

It must be remembered that this Russian zone was created with President Truman's approval at the Potsdam conference. This is the true and tried plan of the Zionists for the propaganda of Bolshevism. It is also the plan of the Zionists for the suppression of anti-Semitism. The conditions in the French zone were reported to be similar; but they appeared to be slightly better in the British and American zones.

This great race of people is threatened with destruction, for which we are partially responsible. It is to their credit that every country of the world welcomes German immigrants; but the Jews are not wanted by any people, not even by their Arabian Semitic cousins.

President Truman and Messrs. Morgenthau and LaGuardia appealed to us to tighten our belts and divide our food with the starving peoples of Europe and Asia. We would cheerfully respond under a Hoover or other Christian administration of UNRRA, but not under a Lehman or LaGuardia or other Zionist administration. We do not share Zionist vindictiveness and we are very weary of Zionist government.

## THE ZIONIST SANHEDRIN

The strange unnatural and unholy alliance between Communism, Zionism, and high finance is paradoxical and mystifying. The Rothschild support explains it. It is the key that unlocks the mystery. A Zionist world empire is the objective; communism and the dictatorship of the proletariat are only preliminary steps to that end. This is the program as set forth in detail in "The Protocols of the Learned Elders of Zion."

A convention of the Zionists was held in Basel, Switzerland, on or about December 12, 1946, which, according to press reports, was attended by 2,000 delegates from all countries of the world. This was presented to be the 22nd biennial convention of International "Zionism" or "World Jewry"

---

which it is alleged has two million members. They are apparently the rich Jews and the rabbis, the “scribes, pharisees and hypocrites” that Christ condemned as “serpents and vipers.”

We had only a slight glimpse of the proceedings of this convention but much more than we have had of any previous conventions. We know nothing about any of them except three, the one of 1897, 1906, and 1933, and very little about them. We know only that their program for world control was outlined in the Protocols at the Basel convention in 1897 and that they declared war on Germany in 1933; that this war finally resulted in the destruction of the German government and the subjugation of the German people. We only know the very little that they are willing to disclose to us. They did not intend for us, the goyim, to know about the Protocols and it was only by chance that they were revealed to us.

The very meager press reports that we had of the proceedings of this convention, 1946, or legislature or parliament, revealed that Chaim Wiseman would be replaced as president because he favored a compromise with the British and Arabs. The published reports did not reveal anything about Morgenthau and we may assume that he continues as head of the American branch. His administration should be satisfactory to the most radical of them for he was influential in getting us into the war and he favors the extermination of the German people; his policy was adopted by President Roosevelt and followed by Truman.

We cannot know the authority of this Zionist organization or the relation of the B’nai B’rith to it, for the reason that they are both racial secret organizations and we can only know what they want us to know. Apparently it is the legislative branch of the Zionist Jews with the power to declare war or peace. We have some of its members in the legislative, executive and judicial branches of our government. Mr. Morgenthau, its vice president in charge of the American branch, was the most powerful man in President Roosevelt’s administration by reason of his personal relationship to the President and of his office which gave him authority over our tax policy and the Federal Bureau of Investigation.

No Zionist should be permitted to hold office or vote in our elections, for he is a member of another and different government. No man can serve two masters. Our government guarantees property rights. The Zionists stand for communal rights, as shown by Russia and Palestine. Every Zionist in and out of Congress is either a pink or red; and every pink and red is for changing our form of government.

What is this huge Jewish convention of rabbis and rich Jews, “aristocrats of the world” as Mr. Untermeyer call[ed] them, that convenes in some foreign country biennially? Is it a Zionist Sanhedrin that legislates for the Jewish race and defines the policy of the race, or one that merely defines the policy of the Zionist members of the race? By what authority are its delegates elected?

These are all questions that are of the greatest importance to us, the goyim, and the answers to which are unknown to us.

Did the convention declare war on the British? They revealed to us that the vital Palestine subject was discussed, that an American Jewish delegate asserted that the Zionists should have all of Palestine and that his speech was greeted with wild and rising applause by the 2,000 delegates; but they did not disclose what action, if any was taken further than to oppose the division of Palestine as proposed by the British. We are interested to know whether they propose to fight for all of Palestine and to what extent we will be involved.

### “UNITY IN DISPERSION”

“Unity in Dispersion” is a history of the World Jewish Congress. It means that the Jews although widely dispersed are now united into a political state that will truly represent their political, economic and social interests. It was written by Dr. A. Leon Kubowitzki who describes himself as

“President of the Council of Jewish Associations of Brussels was co-opted into the Executive and, as Secretary General, entrusted with the preparation of the first World Jewish Congress.” (p. 39).

He made a report on the organization of the Jewish “collectivity” (p. 55) and was made a member of the Executive Committee of the World Jewish Congress (p. 72).

The book was copyrighted in 1948 by the World Jewish Congress, and it may therefore be regarded as the official statement of the organization.

It truly says of the Zionist convention of 1897 that adopted the Protocols, “In this respect, as in many others, the First World Zionist Congress (Basel, 1897) was a turning point in Jewish history” (p. 14). It says of the First World Jewish Congress (August 1936):

“The First World Jewish Congress convened in Geneva, Switzerland, from August to August 15, 1936, in the Batiment Electoral, a building which had housed the Assembly of the League of Nations up to the moment when that international body moved into its own premises. Representatives of various governments, official observers representing the Secretariats of the League of Nations and of the International Labor Office, as well as representatives of several governmental delegations to the League of Nations, were in attendance . . . 280 delegates represented the Jews of 34 countries.” (p. 46, 47).

Thus it appears that the League of Nations and the International Labor Office sent delegates to it. The World Zionist Congress sent delegates and there were 280 delegates from 32 countries including the United States and the United Kingdom. It also appears that the World Jewish Congress supplants the World Zionist Congress and the League of Nations. They were

both merged into it. It is where they belong and it is where the United Nations properly belongs.

The first session of the Congress deferred writing a constitution to a future convention. It declared its purposes as follows:

1. It assumed jurisdiction “of all common Jewish problems of a political, economic or social character insofar as they are apt by their very nature to affect the situation of the Jewish collectivity”;
2. It shall “regularly meet every four years” and
3. “The election of delegates to the Congress shall take place in accordance with the principle of general and democratic elections.”

Judge Julian W. Mack was elected honorary president and Rabbi Stephen Wise was made chairman of the executive committee (p. 70,71).

The author states:

“From a historical point of view they could characterize the session as a turning point in Jewish life as the end of an era of Jewish division and unconcerted action. The Constituent Session of the World Jewish Congress meant the beginning of a new era in which the masses of the Jewish people would be able to raise their voice, through their democratically elected representatives, both before the Jewish people and before the civilized nations of the world in defense of Jewish rights and for Jewish existence” (p. 75).

A session of the World Jewish Congress was held in Atlantic City in November 1944, attended by 269 delegates from 40 countries, called “War

Emergency Conference.” Secretary of State Edward R. Stettinius of J.P. Morgan & Co., extended a welcoming message” (p. 224). The conference

“proclaimed that the Jewish people was looking to the United Nations for the establishment of a new international democratic order based on the Four Freedoms and the Atlantic Charter.”

It demanded the punishment of war criminals stating that the existing “conception of law must be extended to include them.” It demanded the restoration of Jewish rights, reparation for Jewish losses, and “the establishment of Palestine (all of it) as a Jewish commonwealth” (p. 228-9).

“Unity in Dispersion” is a highly revealing book. Evidently the great success that has attended the war enterprises of the Zionists has made them bold and defiant. Heretofore they have suppressed the publication of information about their ambitious program, viz, the Protocols and even the Talmud. Here they loudly proclaim their program.

It is probably that the convention of 1946 was a convention of the World Jewish Congress and not of the World Zionist Congress, as stated above. The Jews no longer pretend that they are a religion, as they have heretofore claimed to our immigration authorities, but they now boldly proclaim that they are a race, with special interests, and they have organized politically as such in order to establish and maintain their “political, economic and social character” and to promote their racial objectives.

### ZIONISTS ARE ANTI-CHRIST

It was the Zionist Jews that Christ so earnestly condemned, and they were the Jews that crucified him. They were the “money changers” that he “scourged from the temple.” He said of them,

“Woe unto you, scribes and Pharisees, hypocrites! For you are like unto whited sepulchres, which indeed appear beautiful outward but are within full of dead men’s bones, and of all uncleanness.

“Even so ye also outwardly appear righteous unto men but within ye are full of hypocrisy and iniquity . . . Ye are the children of them which killed the prophets.

“Fill ye up then the measure of your fathers. Ye serpents, ye generation of vipers, how can ye escape the damnation of hell?”

Martin Luther said *of* them:

“Ye have been above fifteen hundred years, a race rejected of God, without government, without laws, without prophets, without temple . . . Ye can show no other reason for your condition than your sins.”<sup>15</sup>

Both Christ and Martin Luther condemned the Jews as thieves, usurers, liars and murderers.

Why do the Zionists want Palestine? It is not because they want land for the establishment of homes and for founding a nation. There are vast bodies of land in Russia and Africa and Madagascar Island that are much more fertile and better adapted for these purposes and that can be obtained without bloodshed and war. Brazil and other South American countries are soliciting immigrants but they don’t want communists. It is not because the “scribes, pharisees and hypocrites” that compose the Zionist organization and the American Jewish Committee have any illusion that they are of the Israelite tribes in ages past that possessed Palestine for a few hundred years.

---

<sup>15</sup> Table Talk of Martin Luther, translated by Wm. Hazlet, Luther Pub. Society, Phila. Pgs. 42-43.

These men are without any sentiment except lust for money and power [AND revenge against Jacob-Israel's true descendants: the Anglo-Saxon, Scandinavian, Germanic, Celtic and kindred peoples]. It was the Zionists who wrote the Babylonian Talmud and Protocols, and they provide the answer. Palestine is strategically situated for the control of Europe, Asia and Africa. And its wealth of oil and other mineral resources furnishes the means for such control. They have not yet obtained an undisputed title to it and so we are headed for another world war. The United Nations is powerless to stop it and the Soviets would veto it if it attempted to do so.

### 3. BOOM OR BUST

*“Economic crises have been produced by us for the goyim by no other means than the withdrawal of money from circulation . . . Loans burdened the finances of the State with the payment of interest and made them the bond slaves of these capitals . . .*

*“The present issue of money in general does not correspond with the requirements per head, and cannot therefore satisfy all the needs of the workers. The issue of money ought to correspond with the growth of population and thereby children also must absolutely be reckoned as consumers of currency from the day of their birth. The revision of issue is a material question for the whole world.*

*“YOU ARE AWARE THAT THE GOLD STANDARD HAS BEEN THE RUIN OF THE STATES WHICH ADOPTED IT, FOR IT HAS NOT BEEN ABLE TO SATISFY THE DEMANDS FOR MONEY, THE MORE SO THAT WE HAVE REMOVED GOLD FROM CIRCULATION AS FAR AS POSSIBLE.”*

*--Protocol 20*

## GOLD STANDARD

Copper was originally the money of the commercial people of the world. Then a combination of gold and silver, then gold became money. Finally we had gold and silver certificates, and now paper legal tender notes,--"fiat money." When the Protocols were promulgated as the program of the Zionists, the Rothschilds and their agencies were in possession of the greater part of the monetary gold of the world and thereby able to control the economy of the peoples of the world. Since then there has been a very great increase in the supply of gold from the mines and its distribution through commerce.

The text states the plain unvarnished truth: "Economic crises" have been created by the "withdrawal of money from circulation" as in 1873, 1920 and 1930; and the Zionists have always done the withdrawing. Our outstanding bonds will make us the "bond slaves" of the Zionists if we pay them at the existing price and wage level. "The issue of money should correspond with the growth of population" or the requirements of commerce. Our Federal Reserve system was established for that purpose but the Zionists soon perverted it. The gold standard has been the "ruin of the States which adopted it," but the Zionists have caused them to adopt it and are now seeking to re-establish it as the money of the United Nations.

## INFLATION IS A BLESSING; DEFLATION A CURSE

What a difference between the truth as stated in their private Protocols, intended only for the use of their race, and the doctrine as stated in their textbooks and taught by their college professors. Here the true "quantity" theory of money is tersely stated. But they teach the archaic "quality" theory, the gold standard, for the purpose of corrupting the minds of our youth. Money, like everything else, is governed by the immutable law of supply and demand. The more money we have in circulation the higher wages and prices, and the cheaper our debts and taxes; the less money money, the cheaper prices and wages and the higher our debts and taxes.

That is the essence of obscure monetary science. Withdraw money and credit, and values collapse, as in 1920 and 1930; increase it and you expand values and wages. No country can be prosperous with a limited supply of money and credit. Every period of prosperity has been created by an abundant supply of money and credit, and has collapsed when this supply was withdrawn.

Nor can war be fought without an adequate supply of money and credit; and such supply inevitably creates inflation. Our per capita circulation has increased from an alleged \$40 or \$50 per capita to an alleged \$188, and the Office of Price Administration called OPA, was established to hold down prices and wages. The “hold the line” limit of wages established by Roosevelt was for this same purpose. Bonds were advertised and sold to the public for the avowed purpose of preventing inflation and the proceeds squandered in “lend Lease” and otherwise for the same purpose.

We could have financed the war with currency and without bonds, but that would have created inflation. So the New Dealers chose the bond route. They thereby imposed upon us a bonded debt that we can only pay by inflationary prices and wages. The quickest and best way to pay this huge debt is to issue currency in payment of it. That will of course create inflation but it is better than “bond slavery” and poverty and suffering and communism. The bond-holder will not be able to buy as much goods and service with his money. But even that is better than the slavery of labor and industry.

The “kept” press points out the horrors of inflation. Neither we nor the people of any other country have ever been hurt by inflation, but only by deflation. The important thing for us is to have the money to pay our debts and taxes. It is a matter of but little consequence whether the bill is marked \$1 or \$100 if we have enough of them. They say that “what goes up must come down.” That is true of gravitation and also of prices and wages as long as the Zionists have the power of “withdrawal of money from circulation,” and no longer.

## ROTHSCHILDS MANIPULATE INFLATIONS AND DEFLATIONS

It is through inflation and deflation and the manipulation of the exchanges that the Rothschilds have absorbed the greater part of the wealth of the world. Inflate to lure the suckers in; deflate to squeeze them out. If Nathan Rothschild increased the huge Rothschild fortune 2500 times, as he boasted, it was through speculation on the exchange.

He was an observer with the army of the Duke of Wellington at the battle of Waterloo. As soon as he discovered that the allied forces would win, he rushed to London and spread the false report that the Duke had been defeated. This created a wild panic on the stock exchange; people dumped their stocks at a fraction of their value. Nathan ostentatiously sold stocks and secretly bought. When it was learned that Napoleon had been defeated, there was great rejoicing and a great boom, and Nathan unloaded his stocks.

There has never been a boom or a collapse since that time that the Rothschilds have not profited by it, and they created them for that purpose. They have had a perfect system. Through their control of the gold supply of the world they could expand or contract currency and credit at will; expansion created inflation and contraction brought on deflation. We have had depressions with such certainty and regularity that we consider them natural phenomena. And there are those who pretend to be able to forecast them. The world bank was promoted by the Rothschild agents for the purpose of regulating the economy of the world, but it got off to a bad start; even its first Jew president, Eugene Myers abandoned it.

## FIAT MONEY

We are presumably on a gold basis, for we have the Federal Reserve gold convertible note. But the truth is that we are in fact on a “fiat” money basis. No one can present a gold note to a Federal Reserve bank and get the gold, for the law prohibits payment in gold. Fiat money is simply a certificate by

the government that the bill is legal tender for debt and taxes, and that is all that any sane man wants.

The British pound was formerly secured by a gold reserve. It is reported that Nathan Rothschild sought the privilege of issuing legal tender notes. When that was denied, he undertook to break the Bank of England. Day after day, he presented the bank's notes for payment in gold, and collected and hoarded the gold until the bank's supply became exhausted. He then proposed to buy the controlling interest in the bank and it was sold to him. Thereafter the Rothschild control was concealed and it has since dictated the economy of the "sterling" countries. We have given the British government the money to buy the Bank of England and it is now presumably a government bank.

We must give Mr. Roosevelt credit for demonstrating to us the futility and absurdity of the gold standard--the "quality" theory of money. He abolished it by making it unlawful to use gold as money and by burying the gold in subterranean vaults in Kentucky. The commerce of the country was not in the least affected by the transition. It absolutely made no difference in the price and wage level and the economy of the country. We scarcely knew when or how the change was made.

We cannot, however, give Mr. Roosevelt credit for taking us off the gold standard for the public welfare. He hoarded gold to be later used as a basis for the gold certificate for his then contemplated world bank. *It was only a step in the development of the Zionist world empire scheme.*

His every act was for that purpose. He expected to later return to the gold standard for that is precisely the purpose of Bretton Woods, the World Bank, the British loan and the United Nations. He himself said that "*things don't just happen, they are planned that way.*" If that was not his purpose, then the acts demonetizing gold and buying it were meaningless.

The Duke of Bedford states in “Notes and Comments,” under the paragraph,

“Is the Cat Out Of The Bag?”

“During the whole of this eight months (*the ‘phoney war’ 1938-1940*) lengthy negotiations were conducted by the British Foreign Office and Mr. Chamberlain and the German Foreign Office and Hitler, by which for our (Britain’s) side, we offered to stop the war if Germany would again agree to a Gold Standard and International Usury, while Germany offered to stop the war if we would agree to allow her to develop her barter-trade system and give her back some of her colonies . . . then followed the Atlantic Charter meeting of Roosevelt and Churchill, attended by Mr. Montagu Norman, when, as stated above, Churchill pledged this country to support America’s plan to get the world back again on to a gold usury standard when Hitler was defeated.”

## ATLANTIC CHARTER

It will be observed that one of the purposes of the late war was to compel Germany to restore the gold standard and that it was “America’s plan.” It will be observed also that the Jewish banker Montague Norman, governor of the Bank of England was present when the Atlantic Charter was drafted, which was not mentioned by the press at the time in reporting this important news. Germany and Italy had proven that their respective countries were prosperous WITHOUT gold. This demonstration was a threat to President Roosevelt’s hoarded gold and to the plan of world empire. Germany and Italy must be destroyed or the gold would be worthless.

We have fought two wars for the gold standard, world empire, and Palestine; they were Zionist communist wars in pursuance of the plan set forth in their Protocols. The Versailles Peace Treaty established a Financial

Commission, and the Zionist Thomas W. Lamont, then senior partner of J.P. Morgan & Co., was made chairman of it. Soon thereafter this Commission held a session at Brussels and re-established the gold standard throughout the world and thereby brought about a contraction of money and credit and general bankruptcy. Our international bankers did not await the conclusion of the war this trip. They started on the job while war was still pending, through their Bretton Woods Conference, Stabilization Fund, and World Bank. The loan to Britain was used for that purpose and the Marshall Plan was in pursuance of it.

### MYTHICAL GOLD STANDARD

The hypocrisy of it is that we are not on the gold standard. Our Federal Reserve banking system provides for a gold reserve for its notes and deposits but we have no such reserve. It issues a gold convertible note but we cannot convert it, for the law prohibits the use of gold as money. Gold is entirely out of circulation and it is unlawful to possess it or use it (1949). We have a managed or manipulated currency system that can be manipulated without gold as well as with it, but we are still buying gold and burying it. It is reported that we bought \$2,000,000,000 from the Bank of England. Our gold standard is only a pretext; it is a phantom and farce. The bankers probably make a book entry charging so much gold to a reserve for notes and deposits, but it is only a book entry; the gold still lies untouched and buried in the Kentucky vaults.

I wonder if the purchase of gold from the Bank of England was also merely a book entry? We loaned the British \$2,000,000,000 in gold, a book entry; the British used it to buy the Bank of England from the Rothschilds, a book entry; we bought our gold back from the Bank of England, another book entry. In the meantime the gold has remained untouched in the Kentucky vaults. Every operation is a phony book entry, except our original purchase of gold which represented money obtained from the over-burdened taxpayer. The worst of our manipulated currency system is its crooked

managers. The volume of our currency and credit, and our prosperity, are governed by the New York Federal Reserve Bank.

### MANAGERS

The New York Federal Reserve Bank is owned and controlled by the New York banks and trust companies which in turn are owned and controlled by the international bankers. The government indicted seventeen of them to-wit: Morgan & Co., Kuhn, Loeb & Co., Dillon Read & Co., and fourteen others, charging them with conspiracy and monopoly in violation of our anti-trust law. They are no doubt guilty, for most of them stem from N.M. Rothschild & Son of London and there can be no competition between them. But who of us is simple enough to believe that they will be tried and convicted for the crimes they have committed against the American people and our Christian civilization?

These seventeen international banking firms with their banks and trust companies constitute what is commonly called "Wall Street." Stalin says that Wall Street wants war. This is no doubt true for it is dominated by Zionist communists. They want dictatorship and world empire, a world gold standard and Palestine. No matter about war for they don't fight and will prosper by it. No matter about a dictatorship for they will control it. War to them is a source of both profit and power. Wall Street is in control of our government and has been [since] the entire Roosevelt and Truman administrations. It finances and controls both of our political parties. It has brought about our three panics and two world wars. It controls our industries, our railroads, and press and federal reserve banking system.

The Federal Reserve Act was amended and granted an indefinite extension of its charter, by act of Congress. In this amended charter, the Federal Reserve Board was given power to expand and contract the currency; to inflate or deflate. Thus Wall Street was by law invested with the power to rule the economy of the country; authority was given to repeat the Depressions of 1920, 1930 and 1937; and the System was given a perpetual charter. They now seek the power to control the reserves of non-member banks.

There is no necessity for price controls for they have the power to control both prices and wages, which must go up or down together, for that is the inexorable law of money. Wall Street and its political stooges have told the laborer that he can have high wages and cheap prices. It can't be done, for the farmer and manufacturer must have high prices to pay the wages. This makes no difference to the communist, for what he wants is robbery and loot.

Whether we have war or not we are headed for deflation. It is, in fact, the surest route to a communist dictatorship. The Bolsheviks know it and expect it. Our international Zionist bankers can bring it about at the opportune time. There is no patriotism in them; they financed Lenin and Trotsky and the revolution against our Russian ally in the first world war. It is the Rothschild system to finance both sides of a war, for they profit by war; the longer it lasts and the more destructive, the greater their profits.

The President [Truman] called a special session of Congress November 17, 1947, for the purpose of providing relief funds for France and Italy, combating inflation and restoring bureaucratic government. Three-fourths of this message to Congress was devoted to inflation. The real purpose of this special session appeared to be political. He made a campaign speech in his message to Congress that was very pleasing to the 3,000,000 bureaucrats who have or want jobs, to the Zionists of Wall Street and the communists of the labor unions who want to destroy our system of government. He asked Congress to give him and his bureaus authority to fix and regulate prices and wages in order to check inflation and avoid deflation.

The people of the country were reasonably prosperous. Our national income and our tax income during 1947 and 1948 were the largest in our history. It is necessary to maintain this income or increase it, to enable us to pay our interest and taxes. There will be no deflation if we have enough money in circulation. Moreover, \$2.50 corn and wheat, 40 ¢ cotton and \$1.50 per hour wages are not inflationary; but even if they were, it is better to pay

them than to surrender our liberties to the bureaucrats. The President's argument was false economically and he had no right to use the prestige of his office to further his personal ambition.

## INFLATION WILL FREE US FROM DEBT SLAVERY

The obvious remedy for exorbitant taxes and unpayable debts is inflation. The Republicans promised a 20% reduction in taxes to balance the budget and to make payment on the bonds. The American people believed them and repudiated the Roosevelt-Truman new deal regime in the 1946 election. But this cannot be done at the existing price and wage level. There is no way to accomplish it except by cheapening money and increasing prices and wages, i.e. by inflation.

This is not only the logical but the proven way. It was the plan adopted by Solon in 594 B.C., thereby saving the Grecian republic for a considerable period of time; and by Justinian about 1000 years later, thereby prolonging the Roman Empire about 500 years.\*<sup>16</sup>

This remedy adopted by Solon was to “cancel all debts made on the security of the land or the person of the debtor. . . the shaking off of burdens.” The remedy adopted by Justinian was to cheapen money.

At the end of the first Punic war the people were so involved in debt that they debased the AS from 12 ounces of copper to 2 ounces to 1 ounce and afterward from 1 ounce  $\frac{1}{2}$  ounce. Adam Smith, in his “Wealth of Nations,” says of this debasement:

“By combining the three operations into one, a debt of 128 mills of our present money might in this manner be reduced all at once to a debt of \$5,333,000.”

---

<sup>16</sup> *Ency. Brit.*, Title Usury, Vol. 24, page 18

He says further:

“It was not the reduction in the inherent value of the copper that reduced the national debt, but it was the fact that by reducing the ounces of copper in the coin, they were able to issue a larger volume of money. With the same amount of copper, they were able to issue and did issue twenty-four times the volume of money.”

We must either adopt the Solon plan of cancelling debts or the Justinian plan of cheapening them. The latter is preferable. Our bonds at the moment are widely distributed and cancellation would bankrupt many of the holders, but cheapening them by issuing legal tender currency in payment of them would merely substitute currency for bonds. It would not impair the ability of the banks and insurance companies to meet the demands of their customers, nor would it unduly impoverish the “professors” and salaried people and widows and orphans. It will, however, provide a tremendous howl about repudiation, etc. No one, however, has a vested interest in the price and wage level. It is at least as righteous to raise it, as to reduce it by the contraction of currency and credit, or to limit it through the OPA.

By issuing currency in payment of our bonds we will adopt both the Solon and Justinian plans for we would both cancel bonds and cheapen our other debts and enhance the monetary value of our property. We might break the stranglehold of Wall Street on our economy. We might thereby increase prices and wages twenty-four times, as did Justinian, but if we did, it would increase our production and enable all foreign countries to buy our products. *It would save us from war and communism.*

PRICES AND WAGES MUST BE INCREASED AND NOT DECREASED

The farmer must and will quit work if he is not allowed a profit; the industrialist can not pay high wages and taxes without a profit; and the merchant will fold up if people have no money to spend. The one and sure remedy is to get enough money in circulation to prevent deflation,--so much that the Federal Reserve System will be unable to retire it. Cancel our bonds by paying them with currency and thereby restore the solvency of our government; and establish our economy on the basis that it can not be destroyed by the international bankers.

While inflation may injure the bankers, money lenders, and people with fixed incomes (the grafters and drones), it will benefit the debtors, the farmers and laborers (the producers). We have never had inflation in this country. We had what the bankers called inflation in 1919 and following the discovery of gold in California, but it was only a reasonable increase in prices and wages based on the increase of the volume of money in circulation.

They call present prices and wages inflationary and all of the politicians are seeking to deflate them, but they are not; they are necessary in order to maintain and increase production and to enable us to pay our taxes and debts. We must recognize that our present condition demands high prices and wages, and adjust the price and wage level to them. This can easily be done by granting the reasonable demands of the labor organizations and advancing the salaries of the unorganized white collar laborer; and by issuing and controlling the volume of money, as required by our constitution, instead of leaving it to the bankers and their Federal Reserve System.

There has appeared to be destructive inflation in several countries due to a limited supply of goods and an over-supply of currency. That was true of Germany following the First World War due to Jewish manipulation of the reichsmark; and in France as a result of issuing unlimited quantities of the assignat. But we are not within hailing distance of inflation. During the inflationary periods of both Germany and France, the debtor was freed from his debts, and taxes were not a serious burden. The people of both of

these countries were very prosperous during these inflationary periods and they suffered seriously when the bankers restored the gold standard, and deflated. We are not menaced with inflation but with deflation. If our government is destroyed by the communists it will be due partially to the manipulation of currency and credit by the Zionist international bankers.

## BRETTON WOODS ESTABLISHES GOLD STANDARD

It is not worthwhile to attempt to analyze the report of the “Bretton Woods” conference. Whatever may appear to be its meaning, it will be found in practice to mean something else;--that is the way of these slick Zionist international financiers. We thought that in establishing the Federal Reserve system we were providing for the relief of the business community, but we woke up to find that we have only perfected the control of the international banking fraternity.

The real purpose of the Bretton Woods promoters was the restoration of the gold standard throughout the world. That was one of the purposes of this war and also of World War I. The gold standard was restored by the Brussels Financial Conference following World War I, and as a result there was great poverty and suffering and unrest throughout the world.

They have presented us the same package this time under the guise that it is necessary for international commerce, and many good people have fallen for this sophistry. Gold has been out of circulation, both nationally and internationally, for many years, and commerce has not suffered. The Nazi government of Germany demonstrated that a country can be strong and prosperous and can successfully conduct foreign trade without gold. That is one of the grievances of the Jewish international bankers against Germany.

## DESIGNED TO ENSLAVE THE PEOPLE

It is surprising to find that Marion Eccles, former chairman of the board of the Federal Reserve banking system, confirmed this view. In his testimony before the Senate Banking and Currency Committee he said,

*We are the only country left that still has the archaic idea of maintaining a gold reserve back of our currency.” (Congressional Record, April 26, 1945, p. 3899)*

If that is true, then why return to the “archaic” gold standard? There can be but one reason and that is so that the Jewish international bankers may control the economy and the prosperity of the peoples of the world; it is so that they may absorb the wealth of the peoples of the world, impoverish them and communize them; for these international bankers are Zionist communists.

The reciprocal trade act is designed to bring our price and wage level down to that of other countries, and that will be its logical effect. It is utterly impossible for us to maintain higher prices and wages and a higher standard of living than prevails in other countries if they are granted the free privileges of our home markets. The international bankers and the communists are with one accord for the reciprocal trade act. Evidently the act is for their advantage and not ours.

Both Bretton Woods and UNRRA were Zionist schemes for communizing the world. Henry Morgenthau was reported to be the creator of the Bretton Woods Plan. The author of UNRRA is unknown to me, but it was first administered by ex-Governor Lehman and then by the hybrid Jew, La Guardia. It was used by both of them to aid Stalin and Tito in their campaign to communize all of Europe.

Our State Department agreed to cancel the British lend-lease debt of 25 billion dollars; to sell the British the surplus property on hand that cost us 6½ billion for 650 million (10 cents on the dollar); and to lend the British \$3,750,000,000 called “the British loan.” President Truman sent this

agreement to Congress for approval with his recommendation. It was not a loan, but was a gift of about \$25,000,000,000 and was so intended. The real purpose of the loan was to induce the British to adopt the gold standard. France applied for a loan or gift of \$2,000,000,000 and threatened to go the balance of the way Bolshevik if it was not granted.

Former Secretary of Commerce Henry Wallace is reported to have said:

“The Democratic party favors and the Republican party opposes the British loan. Members of the Democratic party should vote for the British loan or be put out of the party by not being allowed to run again on the Democratic party ticket” (Congressional Record, March 19, 1946, p. 2440).

This is not true. There were members of both parties who favored and who opposed this loan. There is no substantial difference between the parties as such except in name. While the Democrats have their Wallaces, the Republicans have their Stassens; and both parties are courting the Negroes and the Communists. Neither is a nationalist party; they are both internationalist and deflationist.

Mr. Wallace no doubt truly stated the position of the P.A.C. and the Communists, for they knew that the restoration of the gold standard would mean world bankruptcy and a fertile field for Communism; but he misrepresented real Democrats. And Henry Wallace, the erstwhile Republican and now Socialist, defines democracy and lectures the Democrats about it and cracks the party whip!

What is democracy and who is a Democrat? Evidently Hillman was one, but what are you and I,--we who believe in constitutional government? There is but one issue before the American people and that is: shall we abide by our constitution and preserve our Republican form of government, or degenerate into a Socialistic or Communistic state?

## MANAGED CURRENCY

President Truman's Council of Economic Advisers through its vice chairman Leon Hirsch Keyserling states that we will sustain a probable loss of \$800,000,000,000 during the next decade as a result of our "boom or bust" policy. The national government has created the "boom" through war and the Zionist (Levitsky) Marshall Plan, and the issuance of currency which they have required. Now they are undertaking to create the "bust" by is contraction. It is not a "boom" that will cost us the \$800,000,000,000 (about 40% of which, or \$300,000,000,000, will be a direct loss to the government in taxes], but it is the "bust."

This will be the direct result of our "managed currency" system. Boom or bust can only be corrected by abolishing the Federal Reserve system and stabilizing the value of money. Money and values and our economy can never be stabilized so long as money, which is the measure of and basis of value of money, is subject to manipulation. It is immaterial whether the manipulator is Zionist Wall Street or the government. The only possible way to stabilize values is stabilize the volume of money, which duty is imposed on Congress by our Constitution. Instead of stabilizing the volume of money our government is contracting it and seeking to bring about another "bust." It is easy to establish a monetary system for America that is fair to commerce and agriculture, to debtors and creditors and salaried people and pensioners, and that will eliminate the "boom or bust" periods.

But I repeat for emphasis, this cannot be done through a managed currency, for the value will be changed (manipulated) to carry out the purposes of the managers, as is now the case. We must have a stable currency in order to have stable values. It is more difficult, but not impossible, to establish a stable world monetary system. We must either do this or we must have a protective tariff system that will protect our producers and their products from the competition of foreigners having cheaper money and labor.

# 4.

## WOODROW WILSON AND THE FEDERAL RESERVE SYSTEM

*“The principal factor of success in the political is the secrecy of its undertakings; the word should not agree with the deeds of the diplomat (politician) . . .*

*“We must compel the governments of the GOYIM to take action in the direction favoured by our widely- conceived plan, already approaching the desired consummation, by what we shall represent as public opinion, secretly promoted by us through the means of that so-called ‘Great Power’--THE PRESS, WHICH WITH A FEW EXCEPTIONS THAT MAY BE DISREGARDED IS ALREADY ENTIRELY IN OUR HANDS.”*

*--Protocol 7.*

Please observe that they stress the importance of lying and hypocrisy. “The principal factor of success in the political is the secrecy of its undertakings; the word should not agree with the deeds of the diplomat.” It is by lying and hypocrisy that they have put over the Federal Reserve system, the Marshall-Levitsky Plan and United Nations; and they now seek to put over the “Atlantic Pact” and appropriations therefor. That is their method of accomplishing their plans, and through that “great power the press, which with a few exceptions that may be disregarded, is already entirely in their\* hands.

It was true in 1897 when they adopted the Protocols that they controlled the press with a “few exceptions,” and it is true now. There are in the world only three or four news distributing agencies, such as the Associated Press, and the Zionists control them. We are permitted to learn of only such current events as the Zionists are willing for us to know

about, and they colored by the Zionist touch. They propagandize us through their Zionist columnists and radio and cinema. If a columnist or a commentator lifts the iron curtain of secrecy, he is punished and suppressed into silence.

### WILSON WAS A JEWISH MARRANO

Woodrow Wilson is reputed to have been a Christian Sephardic Jew (a Marrano). His English ancestors were named Woolfson. The family name was changed to Wilson when they migrated to America. His second wife, Mrs. Galt, was a Jewess. His election as president marks an epoch in our history. Prior thereto our presidents had without exception been honest, sincere and truthful men who sought to establish the principles of their respective parties and to promote the public welfare accordingly. Since then, our presidents and presidential candidates, with the exception of Coolidge and Harding, have been hypocrites and lars; “the word has not agreed with the deeds of the diplomat” (politician).

W.F. McCombs of Baltimore, Maryland, was President Wilson’s campaign manager. He says that they were sorely pressed for money with which to conduct the campaign, and that Henry Morgenthau, Sr., and Stephen Elcus were impressed by Wilson’s views on Jewish immigration and that they financed his campaign. President Wilson went into the Baltimore Convention (National Democratic) as a minority candidate, Champ Clark of Missouri having a long lead. He was nominated by a two-thirds majority by the manipulation of Chas. F. Murphy, Tammany boss of New York City, Roger Sullivan of Chicago and Thos. Taggart of Indiana.

### BANKING AND CURRENCY REFORM WAS A CAMPAIGN ISSUE

President Wilson made his campaign upon a promised reform of our banking and currency system. That was in fact the dominant issue between the Republican and Democrat parties. About two years prior to

this campaign the then Republican administration appointed a commission, called the Aldrich Commission, to study the banking and currency subject. This commission filed a report of 4,000 pages recommending a central banking system with power to control the issuance and volume of money and credit. Candidate Wilson vigorously opposed this bill and advocated in place of it a decentralized system with the local Federal Reserve banks having this authority.

### WILSON'S TEXAS CAMPAIGN MANAGER

I was an original Wilson man and a very enthusiastic supporter. I swallowed his bait "hook, line and sinker." I joined Colonel House and my friend Hon. T.W. Gregory (later Attorney General), in organizing Texas for Wilson and was chairman of his Texas campaign organization. We carried the state for him in a hard-fought battle.

### WILSON WAS AN IDEAL ZIONIST "DIPLOMAT"

Wilson's campaign manager and historian, W.F. McComb said of him:

"I knew Mr. Wilson twenty-six years. I sat under him at Princeton University. I know how he became governor and twice president. I write not as an enemy of Woodrow Wilson, but as an opponent of the subversion of the American Constitution and the destruction of our system of government through vanity and greed for individual power.

"The Wilson ideal was Alexander Hamilton, the Federalist--not Thomas Jefferson, the Democrat. Like Hamilton he believed in a limited monarchy--a life tenure for the President. He was an advocate of the British Government system. He taught it at Princeton University. While President, he regarded himself not only as President, but Premier."

## PAUL WARBURG OF KUHN-LOEB WAS AUTHOR OF THE FEDERAL RESERVE SYSTEM

Paul Warburg of Germany was probably sent by Bethmann Hollweg to reform our banking system. He wrote the Aldrich bill and the Federal Reserve act and the amendment thereto. This amendment perverted the system. It changed it into a central bank by vesting control of currency and credit in the Federal Reserve Board.

The following is the report Warburg made by the Official United States Naval Secret Service, December 12, 1918:

“Warburg Paul, New York City, German 🙄; was naturalized an American citizen 1911, was decorated 1912 by the Kaiser, was vice chairman of United States Federal Reserve Board; is a wealthy and influential banker; handled large sums furnished by Germany for Lenin and Trotsky; subject has a brother who is the leader of the espionage system” of Germany.”

This honored and decorated and former subject of the Kaiser who “handled large sums furnished by Germany for Lenin and Trotsky” is the “spiritual father” of our boasted Federal Reserve banking system and of those carefully concealed powers which vested the Federal Reserve Board with jurisdiction to control the volume of currency and credit and to fix and regulate prices and wages.

Please observe that his (Paul Warburg’s) brother was “the leader of the German espionage system,” and that our distinguished decorated citizen “handled large sums furnished by Germany for Lenin and Trotsky.” This occurred in the latter part of 1915 or 1916 or in the early part of 1917, for it was during this period that Germany brought about the collapse of the Russian government and eliminated Russia from the war through our distinguished decorated naturalized citizen, who was acting as the secret agent for the Kaiser and was also acting as Deputy Governor of our

Federal Reserve Board and system. During this period he was largely instrumental in shaping the policy of this system and enlarging its powers by interpretation.

## SENATE HEARINGS

The Senate Banking and Currency Committee, of which Senator Owen was chairman, held hearings on the Glass-Warburg bill from September 2, 1913 to October 28, 1913. Many bankers, professors, economists, monetary experts, and others appeared for and against certain provisions of the bill. Their testimony covers 3,200 pages of printed matter as set forth in Volumes 1, 2 and 3, "Hearings Before the Senate Committee on Banking Currency, U.S. Senate, on H. R. 7837, 63rd Congress."

It is a significant fact that Senator Glass did not appear before this committee in defense or explanation of his bill, although the charge was then made before the committee that the bill was the Aldrich bill in disguise and that it had in fact been written by the agents of the money trust. The men who explained to the senate committee the purposes and probably effect of the various provisions of the bill were Samuel Untermyer, H. Parkers Willis and others.

Ninety-eight witnesses testified before the committee, of which sixty were bankers. The majority of the others were college professors, authors, and economists.

Mr. George. H. Shibley appeared before the committee as a monetary expert upon the invitation of its chairman, Senator Owen. In introducing him, Senator Owen said: "I should like to say for Mr. Shibley that he has been a publicist in, I think, a very patriotic and high sense, and is a man for who I have great respect." Mr Shibley testified in part as follows:

Senator Reid: That is a startling bit of information . . .

Mr. Shibley: The Aldrich plan was defeated in the Democratic House that was elected in 1910 as the result of the people's uprising against trustocracy. That Democratic House refused to accept the Aldrich bill. Then came the people's success in 1912. But in the House the new chairman of the Committee on Banking and Currency (Mr. Glass) proposed a bill that contained the fundamental fallacy that was in the Aldrich bill, namely that the bank or banks of issue that were in nowise to loan money to individual citizens, and so would not run any risk of losing money, should possess a capital stock to be contributed by the banks, and also that the banks should deposit with the banks of issue a large volume of bank reserves. That fundamental fallacy was contained in the Glass bill, also a proposal that the bankers should control the national board as well as the regional boards (pages 1811, 17,19, Hearings).

Paul Warburg testified regarding the creation of the system as follows:

Senator Bristow: "When did you first become active in promoting reform of the banking system of the United States?"

Mr. Warburg: "1906."

Question: "Were you consulted in regard to the report of the Monetary Commission in any way?"

Mr. Warburg: "Yes, Senator Aldrich consulted with me about details and I gave my advice freely . . . "

Question: "What are the fundamental differences between the two?"

Mr. Warburg: "Well, the Aldrich bill brings the whole system into 1 unit while this deals with 12 units and unites them again into the Federal Reserve Board. It is a little bit complicated, which objection, however, can be overcome in an administrative way."

Question: “You think by administration that you could so organize the present system as to make it conform to the desirable features of the Aldrich bill so far as to centralizations and control are concerned?”

Mr. Warburg: “I think so.”

(Senate Hearing August 1 to 5, 1913.)

#### ORIGINAL BILL AS AMENDED BY W.J. BRYAN AND SENATOR OWEN WAS AN IDEAL MONETARY SYSTEM

The original Federal Reserve Act, as amended, established a unique monetary and credit system superior to any system that ever had been established in any country of the world. It broke the stranglehold of the Rothschilds on our banking and currency system. Currency and credit were based wholly on the demands of commerce and agriculture. They could not be manipulated, managed or hoarded. The only restraint upon them was the gold reserve for notes and deposits. While these reserves were wholly unnecessary, they were not serious handicaps. The Warburg amendment transformed it into a managed currency and credit system with Zionist Wall Street as the managers.

#### ELASTIC AUTOMATIC LOCALLY CONTROLLED SYSTEM

The original Federal Reserve act provided for a gold reserve of 40% for its notes and 35% for bank deposits, both of which were unnecessary. This represented the Rothschild touch to the system. But the act was provided for the discount of “commercial paper” by the regional banks and the issuance of currency therefore. Commercial paper was defined as a note given for agricultural and commercial purposes and discounted by a member bank. This represented the touch of Bryan and Senator Owen.

When a member bank sent such a note to the regional bank with its endorsement it was entitled to currency therefore. The district or regional bank had no discretion in the matter; it was automatic. It was called an “elastic system” that expanded and contracted with the demands of commerce. There was no limitation on the lending power of the member banks, they could advance credit without restriction and without fear. This was the original Glass-Warburg Federal Reserve Act as amended and changed by Senator Owen and Wm. J. Bryan.

In a letter to Senator Oscar Underwood dated Oct. 16, 1914, President Wilson said:

“In like manner by the currency bill we have created a democracy of credit such as has never existed in this country before. For a generation or more we have known and admitted that we had the worst banking and currency system in the world, because the volume of our currency was wholly inelastic; that is, because there was more than enough at certain seasons to meet the demands of commerce and credit, and at other times far too little; that we could not lessen the volume when we needed less nor increase it when we needed more . . .

“No group of bankers anywhere can get control; no one part of the country can concentrate the advantages and conveniences of the system upon itself for its own selfish advantage. . . I think we are justified in speaking of this as a democracy of credit. Credit is at the disposal of every man who can show energy and assets. Each region of the country is set to study its own needs and opportunities and the whole country stands by to assist. It is self-government as well as democracy”(Cong. Rec. Vol. 51, p. 18,512).

This is exactly the kind of system we had prior to the Warburg amendment. But it is now worse than the old system for it is completely controlled by Zionist Wall Street.

## CONGRESS SHOULD ESTABLISH AND REGULATE OUR ECONOMY

Section 8, Art. 1, of the Constitution, provides as follows:

*“The Congress shall have power to coin money and regulate the value (volume) thereof and of foreign coin, and to fix the standard of weights and measures.”*

The discretion is lodged in Congress alone to issue money and regulate its value. No principle of law is better established than that Congress cannot delegate the discretion to regulate the value of money (our economy) to any other agency or bureau; and no principle of political economy is better established than that the volume of money put into circulation establishes its value and likewise the monetary value of goods and services.

Gold and silver are accidental limitations of the volume of money that can be put in circulation dependent on the mines. Gold has been generally adopted as the standard of value because of its scarcity, and its value depended on its scarcity. Its value can be decreased by adding alloys (debasement) as the Romans did with copper; the less gold required in the dollar the more dollars that can be issued, and the more that get into circulation the cheaper the dollar will be as measured by prices and wages, and the higher prices and wages will be as measured by dollars.

The value of money can and should be established by Congress wholly independent of gold and silver. Congress can establish and regulate the value of money by two methods: (1) by fixing and regulating the volume per capita to be circulated, or (2) by the demands of commerce, as did the original Federal Reserve Act.

## WARBURG AMENDMENT TRANSFORMED SYSTEM INTO A ZIONIST CENTRAL BANK

The Rothschild agents brought about the appointment by President Wilson of Paul Warburg as governor of the system, and later of Senator Carter Glass as Secretary of the Treasury. They secured the adoption by a bi-partisan vote of the following amendment to the charter:

*“To establish from time to time, subject to review and determination of the Federal Reserve Board rates of discount to be charged by the Federal Reserve Bank for each class of paper which shall be fished with the view of accommodating commerce and business and which, subject to the approval, review and determination of the Federal Reserve Board, may be graduated or progressed on the basis of the amount of the advances and discount accommodations extended by the Federal Reserve Bank to the borrowing bank.”*

This amendment perverted the original intent and purpose of the law. It changed it from a system that would furnish liberal credits and required and in response to the demand made upon the member banks, to a controlled system, the elasticity of which depended on the wisdom, caprice or design of the Federal Reserve Board. It made the system the master of commerce and industry instead of its servant, as it was intended to be. The amendment was adopted by Congress on April 13, 1920.

This amended charter gave the New York Federal Reserve Bank, which is controlled by the Rothschild interest, full power to regulate and control our money and credit. In pursuance of this power, it brought about the deflations of 1920, 1930 and 1937 and has taken the initial steps to bring about a fourth deflation.

## DEFLATION OF 1920

Promptly following the adoption of the Warburg Amendment, to-wit: on May 23, 1920, the Federal Reserve Board called a meeting of the governors of the System for the purpose of halting the “cycle of rising prices and wages” and there followed the disastrous panic of 1923, which swept away the fortunes of debtors and farmers, including my own.

I wrote and published “The Crime of ‘20” in 1922 and was forced into bankruptcy for lack of credit in 1923. I first revealed the facts stated above and the minutes of the Federal Reserve Board of May 23, 1920. The book attracted the attention of Congress: it was favorably commented upon in the United States Senate by Senator Robert M. LaFollette, Sr., of Wisconsin and Senator Thos. J. Heflin of Alabama. Thos. A. Edison wrote that it was a remarkable book and gave him valuable information about the subject of money.

Despite the fact that Congress has known about the perversion of the system by the amendment, it has never been repealed. On the contrary, Congress granted an indefinite extension of the charter of the system by the Banking Act of 1935.

## PRESIDENT WILSON DECEIVED US INTO FIRST WORLD WAR

President Wilson made his second race for the presidency on the platform that he had “kept us out of the war” which was his campaign shibboleth. The Zionists brought about the sinking of the Lusitania and put the blame on the Germans, and President declared war for the alleged purpose of “preserving the freedom of the seas.” a doctrine that is now obsolete. The British secret report No. 1919 throws a flood of light upon the criminals who brought about the war, and their motives.

## ROTHSCHILD AGENTS ESTABLISHED VERSAILLES TREATY, LEAGUE OF NATIONS AND GOLD STANDARD

Upon conclusion of the war President met with Lloyd George of England and Georges Clemenceau of France to write a peace treaty and establish the League of Nations. President Wilson was guided by Jew Bernard Baruch who rented a house in Paris and was his intimate advisor and companion. Lloyd George was accompanied by Philip Sassoon of the Rothschild family and member of the British Privy Council; Georges Clemenceau had as his advisor Gorges Mandell whose true name was Jeroboam Rothschild and who was then the ruling head of the Rothschild family. It was a Rothschild peace treaty and a Rothschild League of Nations. It was in violation of every promise that President Wilson had made that induced Germany to surrender. The Kaiser was shamelessly doublecrossed and the seeds of the second world war were then planted.

President Wilson and associates appointed Bernard Baruch as chairman of the reparations section of the peace treaty; and Thos. W. Lamont, managing partner of J.P. Morgan & Co., as chairman of the financial section. They fixed reparations at an impossible figure and one that would have enslaved the German people for centuries. The Lamont Commission restored the gold standard and thereby bankrupted the world. They even included China which had always been on a silver basis.

President Wilson was twice elected President of the United States by the Zionists of Wall Street, and the first time on a promise to report and liberalize our banking and currency system; the second time on a promise to keep us out of the war. He double-crossed us both times. His election represents an epoch in our history. It was the end of Christian constitutional government. It was the beginning of the government of liar and hypocrite and the bureaucrat and the gangster. It was the beginning of the reign of Barney Baruch and the Austrian Jew Felix Frankfurter, and of Zionist Wall Street; and it was also the beginning of bi-partisan government.

## 5.

# BRITISH SECRET REPORT NO. 1919 AND CAPITAL AND INDUSTRY

It is stated in the British Secret Report No. 1919 that

“In the financial world the Anglo-American alliance is a well-established fact. And as the consortium for China, and the security company for Mexico show, our brokers and their aids have become the unchallenged financiers of the world. We have been particularly fortunate in our fiscal agents here, Messrs. Pierpont Morgan & Co. The commissions they charged, both as our brokers and purchasing agents no doubt were high enough to warrant their summary treatment at the hands of Mr. Balfour during this visit here. But they advantageously placed our many bond issues and every American holder of these bonds having now a stake in the Empire is a defender of its integrity and a potential supporter of its extension over here. Their services in putting this country into the war may not have been altruistic, but they were nonetheless effective.

“They contributed liberally to our Americanization campaign. They ousted Miss Boardman, and through Messrs. Taft and H.P. Davidson they nationalized and directed the American Red Cross, and then internationalized it under the direction of Mr. H.P. Davidson. Through Mr. Thomas Lamont they purchased Harpers Magazine and the New York Evening Post. Through influence on newspaper policy. Messrs. Lamont and Davidson gave you valuable aid at the peace conference. They loaned \$200,000,000 to Japan that our ally might build a fleet to compete with America on the Pacific carrying routes. Their attempts to retain for us control of the international mercantile marine are well know to you. And I would be amiss if I did not remind you that they relieved the Government of considerable embarrassment by pensioning worthily the widow of our late

Ambassador Sir Cecil Spring-Rice, at a time when the antagonism of Lord Northcliffe made it impossible for us officially to do so. As the greater part of their capital is invested within the Empire, the Government of His Majesty will doubtless have opportunity to appreciate the value of the services of Messrs. Pierpont Morgan & Co.

“Events, and Lord Reading, have also brought to our aid the strength of other international financial groups here. The development of China and of Mexico, and possibly also of Russia, will prove a task in which all may harmoniously unite. Sir Edgar and Lady Speyer might perhaps be now allowed to return to England, and the seat in Parliament which Mr. Otto Kahn was about to occupy when war broke out might be now sold to him.”

The text is from the British Secret Report No. 1919, sometimes called the “Colonel E.M. House letter” which was presented to the House of Representatives by Congressman Thorkelson of Montana and published in the Congressional Record of Oct. 11, 1939, p. 598-604 inclusive. Its authenticity was discussed by members of the Congress and an effort was made to strike it from the Record, which failed. See Congressional Record, Oct. 13, 1939, p. 714 et seq.; also of Sept 9, 1940, p. 17835; and Sept. 11, 1940, p. 18311.

The letter is not published in the bound volumes of the Congressional Record of Oct. 11, 1939, nor the Appendix of that date. Evidently some interested person prevented its publication, despite the refusal of the House of Representatives to strike it from the Record. The text as here set forth can be easily verified by reference to an original unbound copy of the Congressional Record of Oct. 11, 1939.

While it was called the “Col. E.M. House letter” it was not a letter. It was an official report made by an important officer of the British Secret Service, on stationery of the British Consulate at New York and addressed to David Lloyd-George, Prime Minister. It reveals its official character and its verity upon its face. No minor official would dare write such a letter to

the British Prime Minister, or dare discuss the important subjects contained in it., except in the line of duty. It was not written by Col. E.M. House. This name was merely an adopted name; a nom de plume. It is the custom of secret agents to disguise themselves under a number or an assumed name.

The letter is known as the British Secret Service Report No. 1919. It discloses on its face that it was written by Lord Northcliffe, publisher of The London Times, semi-official organ of the British Propaganda Department in enemy countries and was a member of the British Privy Council, as revealed by the letter itself. He sustained toward Lloyd George the same intimate relationship that once existed between Woodrow Wilson and Colonel House, and this fact may explain the name he assumed.

I knew Colonel House personally. He was absolutely incapable of making a treacherous report to the British government or of writing such a treacherous letter reflecting upon his countrymen.

It appears that Morgan & Co. were very “serviceable” in putting us in the first world war. Their services were “not altruistic but none the less effective.” We thought we entered the war because of the sinking of the Lusitania and to preserve the freedom of the seas. But we find it was due, in part at least, to the undercover wire pulling of (British) “fiscal agents here, Messrs. Pierpont Morgan & Co.

We do not know what service J.P. Morgan & Co. rendered the British in putting us into the first world war, but they appear to have had a hand in getting us into the second one. We are prepared to believe that their motives were not altruistic, for they profited enormously by both wars. We have been told that we got into the second one to preserve the Four Freedoms and to establish the Atlantic Charter, but they have been discarded by both Churchill and Stalin.

We also learn that the late Mr. H.P.Davidson of Morgan & Co. “internationalized the Red Cross,” and that Mr. Thomas Lamont of this firm “purchased Harpers Magazine and the New York Evening Post” and through the “advertisers they control, exert wide influence on newspaper policy.” We are informed also that Lamont and Davidson “loaned \$200,000,000 to Japan that our [Britain’s] ally (Japan) might build a fleet to compete with America on the Pacific carrying routes.” What shameless treachery!

The \$200,000,000 loan to “Britain’s ally Japan” was not the money of Lamont and Davidson; they were only the agents. It was the money of our brokers,” N.M. Rothschild & Son. If it is true that Morgan & Co. we instrumental in getting us into the first or second world war, or if they loaned Japan \$200,000,0000 for the purpose of building a competing fleet they and their principals are traitors to America and should be prosecuted as such. Their conviction and the confiscation of their property will do more to ensure the peace of the world than any United Nations.

His Lordship graciously acknowledges that Messrs. Lamont and Davidson “pensioned worthily” the widow of Sir Cecil Spring-Rice at a time when the antagonism of Lord Northcliffe made it impossible for the British Government to do so. This is evidence that his Lordship was then a member of the British Privy Council for otherwise he would not have had jurisdiction and power over the subject of pensions.

If Mr. Kahn had been formally admitted into parliament the title and seat in that august body would have become absolute and not subject resale. In that event his name would have been changed to “Lord Southcliffe” or some other acceptable name, and would have descended, by the British law of primogeniture, to his male heir, from generation to generation in perpetuity. This is an apt illustration of the method by which the the Jews have obtained control of the House of Lords; it is by purchase and by intermarriage with nobility.

## WAR GUILT

What does his lordship mean by “our brokers”? Has he written as a pro-Zionist or as an official of the British Empire? “Our” could mean either; perhaps he meant both. The distinction between the British Empire and the Zionist Empire is not clear and may have been confusing even to this lordship. It is a Zionist controlled and manipulated empire, with the Zionists owning its banks, railroads, hotels, newspapers, radio, cinema, etc. which they have now sold to the British government for cash and bonds.

Obviously “our brokers” refer to N.M. Rothschild & Son, for they are the brokers of the empire; they are its “unchallenged financiers” and have been for 150 years. Through their subsidiaries, Kuhn, Loeb & Co., and J.P. Morgan & Co., they are our railroads, banking system, metropolitan press, cinema, radio, steel industry, and our two political parties. While they are not so strong here as in the British Empire, they are now in actual control of the executive department of our government.

Were we inveigled into the second war by the British through their “brokers, auxiliaries” etc., for the purpose of making us a colony of the British-ZIONIST Empire? Were their brokers and agents and representatives again “effective” in getting us into war? There are many circumstances that support such a conclusion.

1. There is evidence that our fleet was planted and immobilized at Pearl Harbor by Roosevelt for the purpose of its being attacked by Japan.
2. J.P. Morgan & Co., Kuhn, Loeb & Co., and their agents and representatives, including Knox and Stimson, actively and aggressively advocated every measure that preceded and led to the war, viz: the repeal of the embargo, lend-lease, the draft, etc.
3. Thos W. Lamont and Lord Halifax, the British Ambassador, procured the nomination of Wendell Willkie as the Republican

candidate for the presidency, and his secret commitment to war, through the expenditure of large sums of money.

4. The war was operated by the agents of “our brokers” viz: Henry L. Stimson, formerly attorney for Kuhn, Loeb & Co., and Frank Knox, formerly publisher of one of their newspapers. They were both militant “Union Now-ers.”
5. The easiest and surest plan of colonizing our country and effecting “Union Now” is through war. This view was confirmed by Justice Roberts, chairman of the President’s whitewashing board, and by his lordship.
6. The representatives of Kuhn, Loeb & Co., J.P. Morgan & Co., and their subsidiary corporations actively conducted the war and profited enormously by it. The War Production Board which was the overall controlling bureau, was composed wholly of their representatives.
7. Through their willing servants they built at government expense huge plants in this country and foreign countries. The little fellow was blacklisted. When he made a little profit they took it from him by re-negotiation of contracts, or the excess profits tax, or both.
8. Eight hundred thousand refugees, mostly Jews, were admitted into this country in defiance of our immigration laws, during the war period. Congress authorized an appropriation of \$1,380,000,000 to UNRRA for their support and the support of others similarly situated in foreign countries; and the President appointed ex-Governor Lehman of the Jewish international banking firm of Lehman Bros., to administer the fund.
9. It is the fixed policy of the Rothschilds to create monopolies and to bankrupt the independents. It is reported that more than 500,000 small business enterprises were bankrupt during the war period.
10. It is also the fixed policy of the Rothschilds, handed down from the founder, Mayer Amschel Rothschild, to operate secretly

and by lying and deception. We had at the head of the Office of War Information (OWI), Paul Warburg of Kuhn, Loeb & Co., with a corps of communist assistants.

11. The Zionists profited by the first world war and by every other war in the past 100 years [now 170+ years]. Wars are usually initiated for profit, and the first and second world wars were no exception.
12. The bureaucratic control of the government and the regimentation of the people, which began before the war, was for the avowed purpose, according to his lordship, of so disgusting us with our own government that we will seek peace and security under the British flag.
13. Excessive taxation, and the deflation of prices and wages through the OPA and other bureaus, were to impoverish and enslave us, and to crush our spirit of resistance.
14. Mr. Churchill made a speech in the House of Commons soon after the Pearl Harbor disaster in which he boasted as his crowning achievement, that he had gotten us into the second world war and that with our immense resources it would be won. Either that was a vain idle boast, or his government, with the co-operation of "our brokers, their aids and auxiliaries" were responsible for the Pearl Harbor catastrophe and our declaration of war, which followed as a consequence of it. Moreover, the destruction of our fleet would tend to weaken us and make us dependent on the British, which was one of their admitted objectives.
15. The Germans claimed that the British sank the Athenia, several months prior to the Pearl Harbor atrocity, in order to provoke us into the war; that they had no U-boats or mines within 500 miles of it when the Athenia went down. We ignored their statements and this disaster; a more shocking incident was required to arouse us to war. Nothing short of Pearl Harbor or a similar attack could accomplish it; and some such attack was necessary in order to save the British Empire, and hence from a British point of view, the destruction of our

Pacific fleet was justifiable on the grounds of “military necessity.”

16. The British may justify themselves on the further ground that we were just as responsible for the war as they were. Both Churchill and Roosevelt encouraged Poland to resist Germany’s demand for the return of her Corridor, and pledged support in case Germany should declare war. Later they both deserted Poland and agreed to her dismemberment and absorption by the Bolsheviks.

It is true that these are but circumstances. No single circumstance will justify us in concluding that the British ZIONISTS through their agents got us into the second world war; but construed together it is submitted that they established the guilt of the British, their “brokers and auxiliaries and agents,” beyond any reasonable doubt. There is no other hypothesis that will explain them.

### BRITISH RASCALITY

Under the heading of “Industry” the British Secret Report states:

“Through our fiscal agents here and our aids who act for other Allied countries, as Sir Clifford Sifton acts for Rumania, we have become the world’s purchaser. Moreover, the war has made us the custodian of the greater part of the world’s raw materials. With monies lent to us by the American Government for war purposes, we have, acting through quasi-American companies, by the aid of Mr. Connor Guthrie, obtained control of the large oil fields in California and in Costa Rica. And through the nationalization by His Majesty’s Government of the Cowdray, Pearson, and Royal Dutch SHELL interests in Mexico, we, having become masters of the Mexican, Canadian, Rumanian, Armenian, Persian and lessor oil fields, now largely control the oil fuel of the world and thereby the world’s transportation and industry.

“This control would enable us to exert such pressure as would make American industrial interests amenable to His Majesty's pleasure. But it would be unwise to make disciplinary use of our fuel power before we secure remission of our \$4,000,000,000 debt. Otherwise the American industrial interests might retaliate by forcing the United States Government to exact from us the agreed interest, to maintain tariff barriers against our merchandise, and to withdraw support from the rate of exchange, which would make our labor and resources for years pay tribute to this country--an unnatural, an unfilial, and unthinkable proceeding.

“We are conducting a vigorous campaign for the cancellation of this war debt, on the grounds (a) that we fought America's fight for her for 2 years, while she was prospering in cowardice; and (b) that at least the material burdens should be distributed justly, if the world is to be made safe for democracy. Synchronously with this agitation for the remission of our debt, we are agitating for further loans of American money to rebuild our markets in Europe. There is no possibility of these two agitations endangering their mutual success, for we have repeatedly proved beyond question that the American mind cannot synchronously fix and correlate facts, with two cognate items on the statements to be judged each on its merits. Hence, we are able in a cloud of candor to state the merit of the loan--viz, that unless the money be lent to us we cannot pay the interest on it. In these agitations we are receiving valuable, if not wholly disinterested, aid from our financial auxiliaries and fiscal agents.”

I confess that I am unable to grasp just what his lordship meant by the statement, “The American mind can not synchronously fix and correlate facts, with two cognate items and the statements to be judged each on its merits.” I gather from the context that he means that they fool us when they say “in a cloud of candor” that unless we lend them the money they can't pay us the interest on their debt!

We have heard that argument in their press and by their interested “financial auxiliaries and fiscal agents” but we are not impressed with it. We know that we are not getting anywhere in the collection of the debt and that we only increase it by lending them more money. Perhaps we are not quite so dumb as his egotistic lordship believed us to be.

It is a revelation to learn that the 4 billion dollars we loaned them following the last war was invested in oil properties for the purpose of increasing their power over us and our industries. This loan was sponsored by Bernard M. Baruch, self-styled “elder statesman,” who was Woodrow Wilson’s confidential adviser. It has not been paid and it was never intended to be paid when the loan was made.

The ownership of the oil fields by the British Government appears to be more extensive than it is reputed to be. Our informant boasts that the British “largely control the oil fields of the world and thereby the world's transportation and industry.” This explains the reason why they did not use their own oil in the battles on the shores of the Mediterranean Sea. They had pipelines to the Mediterranean, an ample supply of oil, and control of the sea, but we supplied the oil and shipped it 3,000 miles or more through treacherous waters.

The five new deal senators who made a trip to several of the European battlefields were evidently shocked to find that the British Persian refineries were operating only 50% of their capacity and that they were refusing to furnish oil or gasoline for the war effort. It appears from their report that when one of our tankers was sent for gas to be used in the war, that the British refused to furnish the gas and confiscated the tanker!

The British have won their reputation “false Albion” since the Zionists took over the government. It dates from the reign of Queen Victoria in 1940 and has continued to this date. Her reign and the emancipation of the Jew was an epoch in the history of the British Empire. We are entering upon the same deceptive, lying, hypocritical rule, viz: “The word of the diplomat must not agree with the deed.” We will earn the same

reputation. We have joined the British in double-crossing Poland and China. [1949]

## 6.

# ZIONISTS DECLARE WAR

*“The political has nothing in common with the moral. The ruler who is governed by the moral is not a skilled politician. . . He must have recourse both to cunning and make-believe . . . Frankness and honesty are vices in politics.”*

*--Protocol 1*

### “HE LIED US INTO THE WAR”

It is a part of the code of the Zionists and communists to kill and destroy and to lie; they have no regard for life of property or liberty or the truth. They consider it an achievement to destroy everybody and everything that stands in the way of the march of Bolshevism, and to deceive the Christian. These tenets that are so abhorrent to Christians are cardinal principles of the communist and Zionist creed.

At the time of the Pearl Harbor tragedy , President Roosevelt [formerly Rosenfeld] who was himself a communist, had as his chosen advisers--his “kitchen cabinet”--three Zionist communists, viz: Felix Frankfurter, Samuel Rosenman, and Henry Morgenthau. He had made his third race for the presidency, during which he had promised “again and again and again” that our soldiers would not be sent to fight on foreign soil. A majority of the people believed him and trusted him and voted for him.

But Mr. Roosevelt had made other promises to Winston Churchill. They had two secret conferences prior to the Pearl Harbor disaster, one of which as on a battleship in mid-Atlantic, where they promulgated the alleged “Atlantic Charter,” which he subsequently disowned. Mr. Churchill, on February 16, 1942, in a speech to the House of Commons, reported boastfully that he had brought us into the war and that thereby the British Empire would saved.<sup>17</sup>

---

<sup>17</sup> See Congressional Record, Dec. 26, 1942, p. A4763

If Mr. Churchill's statement is true, it must be true that either Mr. Roosevelt or Mr. Churchill procured the attack to be made on our Pearl Harbor fleet, for it was that attack that landed us in the war."If Mr. Churchill's statement is true, it must be true that either Mr. Roosevelt or Mr. Churchill procured the attack to be made on our Pearl Harbor fleet, for it was that attack that landed us in the war.

### ADMIRAL KIMMEL DEMANDED PUBLIC TRIAL

Promptly following this attack the President appointed a committee with Justice Roberts of the Supreme Court, as chairman to investigate the causes of this disaster, thereby preventing Congress from making such investigation. "This commission in its report inferentially charged the commanders, Admiral Kimmel and General Short, with negligence. The entire report was never published. Justice Roberts was an internationalist and was for war & for "union now" with the British Empire. Admiral Kimmel and General Short demanded a public trial by either a court martial or a congressional committee. This demand was met by a subsequent report exonerating them. The period of limitation for their trial was extended by act of Congress. More than six years after the tragedy, we had partial reports of the committees of inquiry appointed by Secretaries Stimson and Forrestal.

### ANOTHER WHITEWASH

These committees filed separate reports with President Roosevelt on Aug. 19 and 20, 1944, and their publication was suppressed until Aug. 25, 1945, when they were ordered published by President Truman. They were obviously the sort of reports President Roosevelt wanted for they placed the blame on everybody except himself. He was the man who was actively directing the war, both the negotiations with the Japanese envoys and the military and naval operations. It was a second whitewash & was intended

as such. These reports stated that there was gross negligence on the part of Secretaries Hull and Stimson, General Marshall, Admiral Stark and others, and recommended that no further action be taken. It was not gross negligence on the part of anybody. It was deliberate, cold-blooded sabotage and murder. "There was nothing that General Marshall or Admiral Stark or even Secretaries Hull and Stimson could have done about it. If any of them or all of them had interfered they would no doubt have lost their jobs [or lives, something cowards never do.] In causing the report to be published President Truman stated that he would not order a court martial. A court martial is not the remedy. There should be a congressional investigator, for the American people are entitled to know the truth. If President Roosevelt and his Zionist advisers were responsible, then the San Francisco charter should be abandoned. Let us have the truth for 'the truth will make us free.' There has been entirely too much secrecy and lying about the war from the very beginning.

#### CIRCUMSTANTIAL EVIDENCE POINTS TO MR. ROOSEVELT

"The truth of this disaster was concealed from the American people by the only man who could conceal it, and that was the President of the United States. No man could have prevented Congress from making an investigation except the President. We do not know just how many Japanese ships and planes attacked Pearl Harbor, just how it was that they managed to travel about 4000 miles from Japan to Pearl Harbor without detection, just why it was our ships were lying at anchor huddled together inside the harbor as if inviting destruction, just why it was that there were no scouts by airplane or otherwise to report the approach of the enemy fleet. All we know officially about it is that the blame was not due to Admiral Kimmel and General Short, but that their superiors were guilty of negligence.

## DECLARATION OF WAR BY ROOSEVELT

We also know that this attack was anticipated by our Commander in Chief, Franklin D. Roosevelt; that he had been warned that it would be made; that he had broken off diplomatic relations with Japan; that “we had cleared our decks and taken our battle stations.” The President himself made that statement in a speech on Oct. 27, 1941--forty days prior to the Pearl Harbor attack.<sup>18</sup>

This was prior to Secretary Hull’s ultimatum. It was equivalent to a declaration of war by the President without congressional authority. He had to have a Pearl Harbor or similar catastrophe in order to get such authority and to get the necessary appropriations for war.

There can be no doubt about the authenticity of this declaration, for it is reported in “Peace and War” published by authority of the Secretary of State and called the American “White Paper.” IT IS OFFICIAL. Secretary Hull said on Nov. 29, 1941, that “the diplomatic part of our relations with Japan are not virtually over, and twice refused, and was relieved of his command and Admiral Kimmel was appointed to succeed him. Admiral Kimmel advised against it but obeyed the voice of his master.

## ROOSEVELT RESPONSIBLE FOR DISASTER

According to the President we were at war with Japan forty days before the Pearl Harbor debacle, but he could not prosecute it without congressional authority and congress would not grant such authority without demand from the people. The only way to overcome the people’s opposition to war was by shocking and arousing them to anger. This could not be easily done, for the memory of how we had been inveigled into and imposed on by the first world war was too recent. We had to have a Pearl Harbor or the British would be defeated.

---

<sup>18</sup> See “Peace and War” p. 112

The destruction of our Pacific fleet and the murder of 3,000 of our sailors, soldiers and marines was not an accident; it was not due to the negligence of the commanders, it was deliberately planned by somebody. Who could have accomplished it except President Roosevelt, and who had motive for it other than he and his advisers? And who could have presented an honest inquiry except he?

An investigation of the Pearl Harbor disaster was made by a joint congressional committee, a majority being new dealers, with Senator Alben Barkley as chairman, and resulted in a third whitewash. This committee is reported to have filed a 500 page report which distributes the blame among a number of Navy and Army officers and principally Admiral Kimmel and General Short, who had been exonerated by a previous investigation. It does not mention Franklin D. Roosevelt and his Zionist advisers. In fact, the committee confined its investigation to subordinates and not to the principals and the real culprits.

In determining the responsibility for Pearl Harbor, Mr. Roosevelt's advisers must be taken into consideration for he was a sick man, his faculties impaired and he was amenable to their counsel. His intimate friends were the Jew Henry Morgenthau, head of the American branch of the Zionists; Felix Frankfurter, Samuel Rosenman and Bernard Baruch. Would Henry Morgenthau, et al, destroy our fleet in order to bring about communism in American and to gain Palestine for the Jews?

Franklin D. Roosevelt was a communist and he sought to destroy our constitutional government and to establish a communist dictatorship in place of it. Every act of his administration from the beginning to the end was for that purpose; his regimentation of the farmer, his coddling of organized labor, his packing of the Supreme Court, Pearl Harbor and the United Nations. And every such act was wrong and disastrous.

## THE CONSPIRACY

The scheme for a League of Nations and United Nations and a resultant Zionist World Empire was hatched at the Zionist convention in Basel, Switzerland in 1897. Lord Rothschild of London was present at this convention and the huge wealth of the Rotschild estate has been used since in promoting this plan. *The Zionists there proclaimed their purpose to subjugate the Christian people of the world and to establish a Zionist empire with their king as ruler.* The Protocols revealed their plan of conquest. They boasted in them that with a few exceptions, *they then controlled the press of the world and also the gold of the world.*

## NEGRO PROVINCE

It is the plan of the communists to divide the United States and to give the southern half of it, including Texas, to the Negroes. This plan was proposed years ago by the communist Jas. W. Ford, formerly candidate for vice president on the communist ticket, and James S. Allen (Sol Aurbach) in a pamphlet, "Negro Soviet Republic." It was subsequently adopted by the Comintern. The communist leader Alexander Butelman arrested for deportation as a communist, in his pamphlet, "Milestone in the History of Communist Party," page 85, says:

"Once more came the 'outside' influence of the Comintern and what did it say? It said that the struggle against discrimination and for Negro rights is a revolutionary struggle for the national liberation of the Negroes, that we must fight for complete Negro equality, and that in the Black Belt the full relaization of this demand requires the fight fo rthe national seld-determination of the Negroes including the right of seperation from the United States and the organization of an independent state."

With this prospect of self government and the promised gift of our property, the majority of the Negroes will of course be communists.

### ZIONIST WORLD CONFERENCE

In July, 1933, a Zionist "World Economic Conference" was held in Amersterdam, Holland, attended only by Jews and presided over by the plutocratic Jew, Samuel Untermyer, a New York lawyer. This conference unanimously decided to declare war on Germany by boycotting all German people and German goods. We do not know how the delegates to this conference were selected, nor anything about its proceedings and conclusions, except as reported by Untermyer in a radio speech published in the New York Times, August 7, 1933. It was a conference of international Jewry.

### ZIONIST BOYCOTT

In this speech Untermyer said, in part, as follows:

"It is a war that must be waged unremittingly until the black clouds of bigotry, race hatred and fanaticism that have descended upon what was once Germany, but is now medieval Hitlerland, have been dispersed. If we sill but enlist to a man and persist in our purpose the bright sun of civilization will gain shine upon Germany and the world will be a safer place in which to dwell.

"But why dwell longer on his revolting picture of the ravages wrought by these ingrates and beasts of prey, animated by the loathsome motives of race hatred, bigotry and envy? *For the Jews are the aristocrats of the world.* From time immemorial they have been persecuted and have seen their persecutors come and go. They alone have survived. And so will history repeat itself."

## JEWS ARE PLUTOCRATS OF WORLD

In England, the Jews attained prestige and political power by acquiring many of the great titled estates by purchase and through intermarriage with the nobility. In fact, the impoverished nobility frequently sought marriages with wealthy Jews in order to maintain their unproductive estates. And many Jews attained “nobel” rank, and seats in the House of Lords, by outright purchase of their titles.

In the radio speech mentioned, plutocrat Untermeyer also declared:

“Each of you, Jew and Gentile alike, who has not already enlisted in this sacred war should do so now and here. It is not sufficient that you buy no goods made in Germany. You must refuse to deal with any merchant or shop-keeper who sells any German-made goods or who patronizes Germany ships or shipping. . . .”

## ZIONISTS DECLARED WAR IN 1933

On March 16th, 1942, Father Coughlin reported Untermeyer’s celebrated radio speech in his paper, *Social Justice*, under the title, “Who Started Sacred War?” In explaining the speech, the article states:

“Soon nine years will have elapsed since the worldwide ‘sacred war’ was declared on Germany, not by the United States, not by Great Britain, not by France, not by any nation; but the race of Jews!

“Startling as that state is, it is substantiated by a public address, made over Station WABC, outlet of the Columbia Broadcasting System, by Mr. Samuel Untermeyer, an American Jew. Was Mr. Untermeyer speaking as an individual, as an American citizen, as a crackpot? Absolutely no. He was speaking as a member of ‘our race.’ He was speaking as the

executive official of the world Jewish economic federation.”

### “SOCIAL JUSTICE” SUPPRESSED

The *Social Justice* article also emphasized the fact that the Jews made great fortunes out of the spoliation of Germany after the country had been weakened and demoralized by the war and the spread of communism. The article states:

“Indeed the Jews became the aristocrats of Germany -- financial aristocrats, if you please, having confiscated through their monetary manipulations a great share of the wealth that belonged not only to the two million members of the Nazi Party, but to the fifty million Catholics, Protestants and other Gentiles who did not belong to the Nazi Party.”

Father Coughlin’s paper, *Social Justice*, having several hundred thousand subscribers, lasted only two issues after the discussion and publication of the Untermeyer radio speech. Father Coughlin narrowly escaped prosecution with the thirty alleged seditionists in the celebrated Washington trial. And the author shared the experience of the radio priest for a similar offense against the anti-Christians. Perhaps we escaped because we were not quite so defenseless as the poor people who were indicted and persecuted.

### THE CONSPIRACY

The Jewish economic war against Germany was a failure. The German people were industrious and resourceful and prospered in spite of it. The government established a system of barter with other countries that enabled the people of Germany to exchange their products for the

products of other countries which relieved them of the control of the bankers. And more importantly, it did not change the attitude of the German people and government toward the Versailles treaty and the Jews. They were not subdued.

## ROOSEVELT ADVISED WAR

Adolf Hitler became “der Fuehrer,” the leader of the German people. He stopped the payment of German reparations and undertook by negotiation to restore the pre-war boundaries of Germany. The Chamberlain government wanted to avoid war and to make these concessions, and to that end adopted a policy of “appeasement” as it was called by the Jewish press. With one accord the Jewish press smeared Chamberlain and denounced the Munich agreement.

Hitler demanded the return of the Polish (Danzig) Corridor which had been wrested from Germany by the Versailles Treaty in violation of the promises of President Wilson’s “14 points.” Our government, through its Ambassador to France, Wm. C. Bullitt, reputed to be a hybrid Jew, advised the Polish government to refuse the demand and promised that in the event of war we would enter it in defense of Poland. The authority for this statement is the press report of the Germany “White Paper.” The Germans claimed to have discovered the Bullitt correspondence in the state papers of the Polish government when the Polish capitol was captured.<sup>19</sup>

The British government was then divided regarding the war; the Jews desired it but Prime Minister Chamberlain and the Gentiles were opposed to it. Hore Belisha, Minister of War, a Jew, and Winston Churchill, then Lord of the Admiralty, reputed to be a hybrid Jew--were for war.

---

<sup>19</sup> The columnist Frank Waldrop said:

“Churchill formally threw in the sponge yesterday and handed Poland over to Russia. The only thing remaining now is to see how Roosevelt operates to get off the spot, if he can. . . . That it is a doublecrosse plain and clear can not be debated.”

## CHURCHILL CABLEGRAM

In October 1939 following the Munich appeasement conference, Churchill sent the following cablegram through the State Department and in the code of our State Department to President Roosevelt:

“I am half American and a natural person to work with you. It is evident we see eye to eye. Were I to become Prime Minister of Britain we could control the World.”<sup>20</sup>

This enigmatic cablegram needs interpretation. What does he mean by saying, “I am half American and a natural person to work with you. It is evident we see eye to eye”? It is very clear that he means by “we see eye to eye” that he knew Mr. Roosevelt was trying to bring about war. It was the language of a hybrid Jew to a hybrid Jew and from an ambitious war-maker to an ambitious warmaker, and Mr. Roosevelt no doubt understood it. It also meant that Churchill was against the Munich agreement just as Roosevelt was.

Why should Mr. Churchill tell the President of the United States, “Were I to become Prime Minister of Britain we could control the world”? There is the very clear implication that this was a bid for the President’s influence to help get him the job. It is not clear what the President could do to help him, but Churchill evidently thought he could do something, and probably he could and did, through Jewish influence. There can be no mistake about the fact that these two ambitious men were really out to control the world and not to establish the “four freedoms” and the “Atlantic Charter” as they afterwards pretended.

---

<sup>20</sup> Congressional Record, June 8, 1945, p. 5904

## ARREST AND CONVICTION OF TYLER KENT

There can be no question about the authenticity of this cablegram. It was decoded by Tyler Kent, code clerk of Ambassador Kennedy. Kent revealed it to Captain Ramsey, a member of the British Parliament, who was opposed to war. Kent disclosed this message together with other secret Churchill cablegrams of like tenor, because he also was opposed to war, and from a sense of patriotic duty. His prosecution and conviction in a British star chamber tribunal was infamous and a disgrace to our government.

The Churchill government arrested Kent, imprisoned him, and tried him secretly upon some charge, and he languished in a British prison under a seven year sentence. Kent was entitled to immunity from British prosecution as an attache of our State Department. If he violated any law he was entitled to a public trial in an American court. President Roosevelt waived Kent's ambassadorial immunity and his right to a public trial for the obvious reason that he did not want the truth revealed by such trial. Captain Ramsey was also imprisoned without trial.<sup>21</sup>

## COLOSSAL LIAR

The bold columnist, John O'Donnell, said in his column on Aug. 17, 1945, that the case of young Kent is even more important than Pearl Harbor, and

“If the allegations concerning the secret messages are true, Franklin Roosevelt will be marked down in history as a colossal liar who deliberately deceived and betrayed his nation by telling his fellow citizens that his international policy was to keep this country out of any European war, while at the same time he secretly connived to create a new government in Britain headed

---

<sup>21</sup> See the able and courageous speech of Congressman Clare Hoffman, Congressional Record, June 8, 1945, p. 5903-4.

by war-loving Churchill after ditching the peace-loving Chamberlain, all under Roosevelt promises that he could finally swing this nation into belligerency, despite the wishes of Congress and the majority of the voters.”

Their secret meetings in mid-ocean were evidently in pursuance of this conspiracy and not for the purpose of formulating and proclaiming the “Four Freedoms” and the “Atlantic Charter.” They probably arranged for the Pearl Harbor disaster at one of these conferences. It is probable also that Mr. Churchill stated the truth when he boasted that he had brought us into the war.

O'Donnell later revealed the fact that a short time before his death President Roosevelt brought about the enactment of senate bill 805 which provides that “any state department official or employee who reveals any material which has been or purports to have been transcribed by code, cipher, etc. shall be fined \$10,000 or imprisoned ten years, or both.” This was for the obvious purpose of silencing Tyler Kent; and it accomplished its purpose. The young patriot has suffered enough as a result of this effort to serve his country. This act should be repealed and Tyler Kent should be invited to appear before a congressional committee and given an opportunity to reveal “the truth and the whole truth.”

## 7.

# ZIONIST EMPIRE

*“By all these means we shall so wear down the GOYIM that they will be compelled to offer us INTERNATIONAL POWER of a nature that by its position will enable us without violence gradually to absorb all the State forces of the world and to form a Super-Government. In place of the rulers of today we shall set up a bogey which will be called the Super-Government Administration. Its hands will be of such colossal dimensions that it cannot fail to subdue all the nations of the world.”*

*--Protocol 5.*

The Zionists organized the Third International for the propagation of communism throughout the world and financed the organization with the resources of the Russian government. At the time of the outbreak of World War II the government maintained a standing army of 8,000,000 men for the purpose of promoting communism.

Because of the inhuman cruelty of the Bolsheviks and their avowed purpose to communize the world, the bolshevik government was black-listed by every country of the world, including our own, until recognized by President Roosevelt. In doing so, he is alleged to have obtained the express agreement that the Soviets would not attempt to communize America, which agreement they promptly and flagrantly disregarded. This recognition by Mr. Roosevelt was followed by recognition by Britain, France and other countries.

#### BOLSHEVIKS THREATEN TO OVER-RUN THE WORLD

Prior to World War II the Bolsheviks waged war against Poland and Finland separately for the purpose of bolshevizing them, and were defeated by both of them, acting separately. They were being ingloriously defeated by Germany until we went to their rescue. The Bolsheviks have now extended their dominion to Finland, Estonia, Latvia, Poland, Austria, Hungary, Germany, Czecho-slovakia, Yugoslavia, Romania, Bulgaria and China. They seriously threaten France, Italy, Greece, Spain, Portugal, Holland, Belgium, Norway, Denmark, Seden Turkey, Manchuria and Korea.

#### BRITISH EMPIRE A DISGUISED ZIONIST EMPIRE

The British Empire is a Zionist Empire in disguise. The king and the cabinet are only window dressing. The government is the prime minister

who is controlled by the privy council which in turn is controlled by the Zionists. The Jews owned everything in the British Empire worth owning: the railroads, banks, insurance companies, hotels, newspapers and factories, the export and import trade, and the whiskey trade; (and that is substantially true in America); and the opium trade of China and India. They built the British Empire by employing the British Navy and Army for the conquest of weak countries. They recently sold the Bank of England other properties to the British Government.

The English historian Hillaire Belloc says of the British Jew:

“The Jew might almost be called a British agent upon the Continent of Europe, and still more in the Near and Far East, where the economic power of England extended even more rapidly than her political power. And the Jew pointed to the English State as that one in which all that his nation required of the goyim was nowhere to be found. He here enjoyed a situation the likes of which he could not hope to enjoy in any other country of the world.--All antagonism to him had died down. He was admitted to every institution in the State, a prominent member of his nation became chief officer of the English Executive, and, and influence more subtle and penetrating, marriages began to take place, wholesale, between what had once been the aristocratic territorial families of this country and the Jewish commercial fortunes--English family in which there was no Jewish blood were the exception.”<sup>22</sup>

The change of Government has no effect on the privy council. It continues without Jewish change no matter whether parliament and the prime minister are conservative, liberal, or labor. The privy council is always made up principally of Jewish members of the House of Lords. Mr. Belloc says that the House of Lords is of Jewish complexion and appearance. He also says:

---

<sup>22</sup> The Jews, page 223.

"In nearly all of them (English families) the strain was more or less marked, in some of them so strong that, though the name was still an English name and the traditions those of a purely English lineage of the long past, the physique and character had become wholly Jewish and the members of the family were taken for Jews whenever they traveled in countries where the gentry had not yet suffered or enjoyed this mixture."<sup>23</sup>

Mr. Belloc further describes the political conditions that existed at the time of publication of his book in 1922 as follows:

"Every English government had (and has) its quota of Jews. They had entered the diplomatic service and the House of Lords; they swarmed in the House of Commons and in the universities . . . They were all powerful in the press; they were all powerful in the city (London)."<sup>24</sup>

There were then sixty Jews in the House of Lords and most of the balance were hybrids.

How similar to conditions that exist in this country, and particularly in New York. England is a country from which the Jews (17,000 of them) were expelled under penalty of death in the 12th century, and that had been entirely free of them until the 16th when they were permitted to return. There were only 30,000 of them in the British Isles as late as 1830 and they were not allowed any privileges of citizenship; they could not vote, hold office, practice law or medicine, or teach in the schools.<sup>25</sup> . Now they virtually own and operate the British Empire. Such is the power of money.

## UNION NOW

There is a well organized and financed movement to bring about “Union Now” between the United States and the British Empire by “Federal Union, Inc.,” of which Clarence K. Streit is president. It was reported in the press April 5, 1943 that Justice Owen J. Roberts wrote Mr. Streit that “you can put me down in the list of supporters of the ‘Union Now’ idea.”<sup>26</sup>

## FEDERAL UNION, INC.

For many years there has been a society called the “American Pilgrims” with the same objective. This society may still be in existence but it is probable that it was merged with the “Federal Union, Inc.” In 1940 its officers were Nicholas M. Butler of Columbia University, president; Herbert L. Satterlee (brother-in-law of J.P. Morgan), and Jas. W. Gerard (former Ambassador to Germany), vice presidents. The Executive Committee was composed of Thos. W. Lamont, Owen D. Young, Myron C. Taylor, Gages W. McGarragh and other rich men of more or less prominence.<sup>27</sup>

The sole and only purpose of these organizations was and is to reunite the United States with the British Empire. Should we become a part of this union “our traditional rights and liberties will be lost and we will have no better status than a British possession.” In that case the overall governing body would be the King of England and his Privy Council and Cabinet and the British Parliament. The latter is composed of a House of Lords and House of Commons.

## THE BRITISH-AMERICAN EMPIRE

Suppose we save the British Empire. What then? We will probably have two empires with the Zionists in control of both of them that will later be merged into one,--the super-government for which they are striving. One of these empires will be the Bolshevik Empire composed of the greater part of Europe, Asia and Africa; the other the British-American Empire composed of the Americas and maybe some small remnants of the eastern hemisphere.

Mr. Churchill had the cold nerve to assert that the Japanese war was our war and to loyally and piously promise to stay with us to the end. What did we get out of it? Nothing; absolutely nothing, except the preservation of the British Empire and the extension of the Bolshevik Empire.

Let Europe, Asia and Africa have the sort of governments they want without let or hindrance from us. If they prefer Russian Jewish Bolshevism to British Jewish imperialism, that is their affair and not ours. We should return to our ancient moorings, viz: constitutional government, isolation, and the Monroe Doctrine.

## ONE WORLD

The purpose in view in the United Nations Charter and the League of Nations was to create a Zionist World Government. The president of the League of Nations, when it ceased to operate, was the Russian Jew Bolshevik Maxim Litvinoff. The managing officer of the United Nations is the Norwegian communist Trygve Lie. It will not be long until the Bolsheviks control the United Nations and not long thereafter until they control all of the nations and peoples of the world. Our state governments will disappear and our national government will be only a state province of a super-state.

## AMERICANS UNITED FOR WORLD GOVERNMENT, INC.

The communists have incorporated the above named company for the promotion of world government, with Walter Wanger, a Hollywood motion picture producer as President.<sup>28</sup> This scheme appears to have originated with our former Secretary of State, Ed R. Stettinius, partner of J.P. Morgan & Co., or at least with his blessing. His former special assistant, Thos. K. Finletter was chairman of the board and Arthur J. Goldsmith secretary. The following reds and pinks were among the directors: James P. Warburg of Kuhn, Loeb & Co., Marshall Field, Jr., Darryl F. Zanuck, Frank P. Graham, former president of North Carolina University. The following “leftist” gentlemen were among the promoters of the institution: Isadore Lubin, former economic advisor to President Roosevelt, David Dubinsky, Jas. G. Patton, president of the Farmers Union, C.B. Baldwin of the P.A.C., Re Stout and others.

The company was reported to have headquarters in New York City and Washington, D.C., and fifty chapters throughout the country. Mr. Adams states that,

“There are nearly 200 similar organizations all working toward the world government goal--and that they have promoted the idea of the world bank, lend lease, a world P.P.A., UNRRA, world control of communications and flows of trade, world control of education, of labor unionism, and radio press.”

What a formidable array of wealth and power against our system of government and the unorganised American people!

He further says that,

“Their policy is to establish world government through amendment to the United Nations charter, a document which

---

<sup>28</sup> Hancock Adams. See November 1946 issue of National Republic.

it considers to be only the first step in the direction it wishes to take. How they are to do away with the American Constitution is not stated by presumably by circumvention or by dissolving it.

They now pretend that they want to establish a United Nations to prevent war but that is not their purpose. Their objective is to establish a world government. The terms of the charter as it was written are of small consequence for they will be changed. The world bank was established with the Jew Eugene Meyer at the head of it; a world atomic commission with the Jews L.L. Straus and David Lilienthal at the head of it; and U.N.R.R.A. under the direction of the hybrid Jew La Guardia who used it to fatten Jews and starve Christians.

The magazine Time stated in its issue November 11, 1946,

“In Paris last week the United Nations educational, scientific and cultural organization (U.N.E.S.C.O) was getting ready for its first organization; that is American members were selected by Wm. Benton (communist); that is American representatives are Archibald McLeish, Chester Bowles, Milton Eisenhower (brother of General Ike), Anna Rosenberg,” and others, all reds or pinks.

And that they propose to establish a United Nations radio at an estimated cost of \$250,000. It reports that the U.S. delegation will

“press for a conference to rewrite the world’s textbooks so that old ultra-nationalist misunderstandings would not be passed on to the school kids.”<sup>29</sup>

Of course. That is precisely what the communists are trying to do here in America. The other boards, bureaus and commissions will be organized in due course of time.

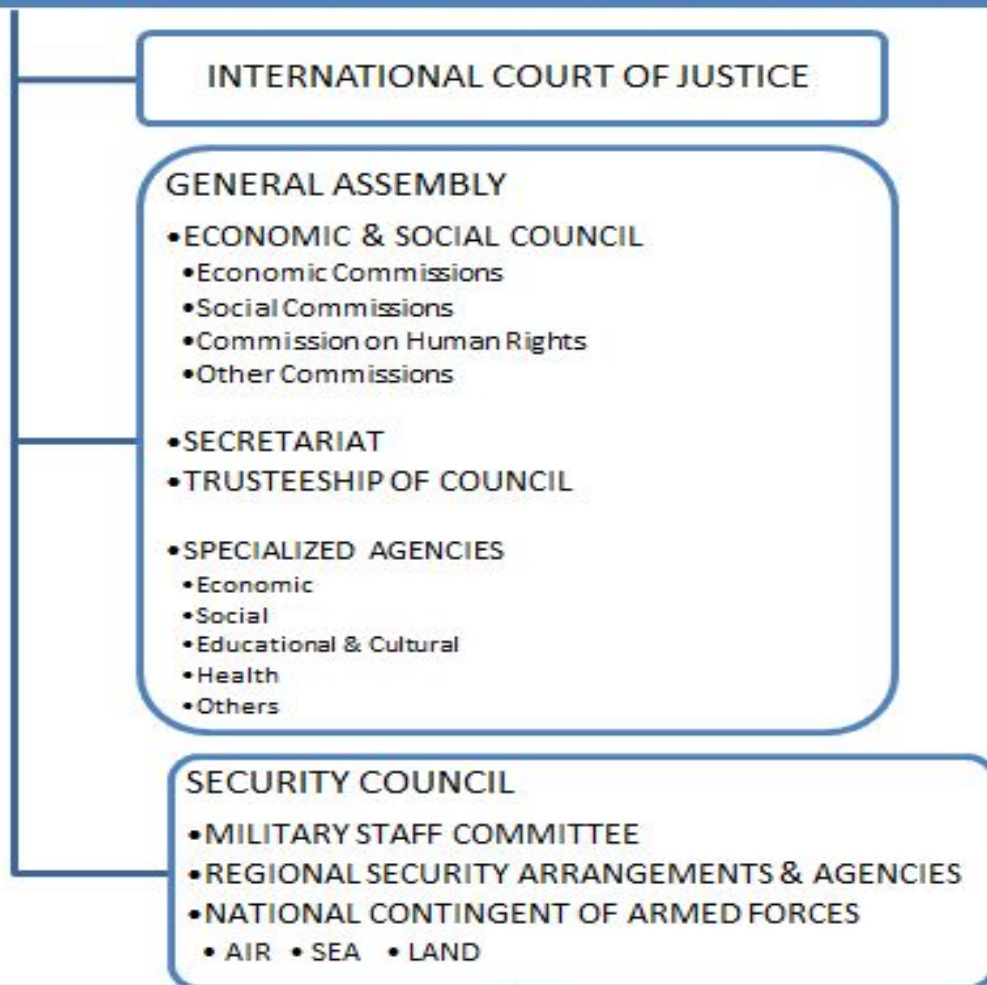

---

<sup>29</sup> Liberty Magazine, December 4, 1945

Mr. Adams says in his article that Henry Wallace in his Madison Square Garden speech indicated that there would probably be two worlds, one headed by Russia and the other by the U.S. but that it is the purpose of all the internationalists to establish only one. We have the “Union Nowers” with the British Empire. They are also dissatisfied with our isolationism and our Constitution and must destroy it in order to accomplish their purpose. It was stated by the Associated Press on November 14th that it is the policy of the present British Government to promote a “World Government, elected by the people.” We must choose between this world government and our national government founded on our Constitution.

The following is a chart of the proposed ONE WORLD GOVERNMENT as shown in the United Nations Charter under Chapter XIII “The Trusteeship Council.” It will be observed that the “Economic and Social Council” will have much more power than our National Government has under our Constitution. It will have jurisdiction over everything that can be classed as “economic,” “social,” “educational and cultural,” “health,” and “others.” It will have all of the power that under our federal constitution we reserve to ourselves and to the states.

# ORGANIZATION OF THE UNITED NATIONS

The above map is reproduced from the charter of the United Nations. It shows that this world government will have jurisdiction over our economy, our social relations, our educational institutions, our hospitals, doctors, and "others," meaning everything else. What more authority can be granted to it? It will wipe out every vestige of national and state governments--all for the pretended purpose of preserving peace that is being violated by the communists and which we can not stop except by war. Please bear in mind that the expenses of this elaborate world government are not to be paid equally by the people of the world, 49% is arbitrarily imposed on the people of the United States without their consent.

## NEW YORK PEACE (?) CONFERENCE

A communist world peace conference was held in New York for three days during March 1949 under the auspices of the “Cultural and Scientific Conference of World Peace.” It was attended by 23 accredited delegates and by Gerhardt Eisler, American communists and communists from other countries. The State Department refused to admit a few of the British and French communists because they did not have proper credentials. It branded the convention as a “sounding board for communist propaganda,” but it could not have been held without the approval of President Truman and Secretary of State Acheson. It had an estimate 2,000 delegates and the convention was picketed by an estimated 5,000 patriots. It adopted the following resolutions:

1. To do everything possible to strengthen the United Nations as the best hope for peace.
2. To organize the sponsors of the conference into a “Cultural and Scientific Committee of the Arts, Sciences and Professions” for the promotion of the Socialistic Program.

## SAN FRANCISCO CHARTER

The courageous columnist, Westbrook Pegler, attended the San Francisco Conference that set up the United Nations. He said of it that it looked like a great Semitic convention. The Jews flocked there from the four corners of the earth. The charter itself was written by the Jew Jacob Pasvolsky of our State Department. The spy Alger Hiss, also of the State Department, was there to assist him to get it adopted. The then Secretary of State Edward Stettinius was there, as was also Secretary of War H.L. Stimson. It was a great gathering of Jews and Jew stooges.

The charter established a socialistic super state which was intended to govern all of the peoples of the world, including the people of America; that will be its effect. Trygve Lie, a Norweigan socialist and the nominee

of Stalin, is at the head of it. We are its main support and it is costing us in excess of \$100,000,000 annually.

The utter futility of the United Nations as an agency to preserve the peace is demonstrated by its refusal or inability to halt Soviet aggression in Europe and Zionist aggression in Palestine. The Soviet Union is endeavoring to starve the Germans into submission to Bolshevism and to drive the Americans and British out of Germany. It is an irony of fate that we must now depend on Germany to arrest the march of Bolshevism And to protect the British and ourselves from Communism. What a dreadful consequence of the war to establish the Atlantic Charter and the Roosevelt-Churchill "four freedoms." What a condemnation of the Morgethau-Eisenhower-Lubin plan to destroy Germany.

It is reported that the Zionists drove 500,000 Arabs from their homes and that they are destitute and sojourning in other countries. The U.N. did nothing about it except to send Count Bernadotte as a mediator, who obtained a temporary truce. It can do no more. Of what use is the U.N. if it is unable to protect a small country from invasion? The Arabs alleged that the Zionists bribed certain members of the Security Council of the U.N. to promote the partition of Palestine. Whether this was true or not the fact remains that it can be done;

...and the fact remains also that the Zionists have unlimited funds and do not balk at bribery or murder.

They killed the U.N. peace messenger, Count Bernadotte. The civilized peoples of the world were shocked and amazed. The friends of the Zionist State of Israel could not avocate its recogition until this atrocious act of barbarism and treachery was repudiated by the Zionist authorities, and accordingly they did so. They promised punishment of criminals and arrested some of them. The following is an Associated Press dispatch of their prison delivery, published in the Dallas News and other daily papers on October 11, 1948:

“Between thirty-five and forty of the prisoners, seized after the September 17 assassination of Count Folke Bernadotte the U.N. mediator, are still at large after a jail break Saturday that had a comic opera touch.

“The Sternists had disarmed their Israeli military police guards almost without resistance, roamed the streets at will for ten hours, shared looted beer with their former captors and bathed in the sea off Andromeda’s rock.”

The anti-Zionist Jews of course repudiated this flagrant treachery for it was unwise as well as criminally wrong. But obviously the Zionist Jews of Palestine did not, for there were not enough of them to guard the prisoners; for them it was a Roman holiday. They approved the murder and applauded the murderers as heroes. The worst of it is that they were taught to do so by their rabbis, and this dastardly act is justified by their bible, the Talmud, and their religion.

This assassination is characteristic of the Zionist Jews. It is what they did to our Saviour Jesus Christ who sought to reform them. It is what they did to British soldiers who sought to provide a home for them in Palestine and to protect them from the Arabs. They have been taught by their rabbis and their Talmud that they are God’s chosen people, that all other peoples are their inferiors, that God intended that they should possess the wealth of the world and to rule it.

Gold and world empire are their religion. They are taught that the gentile (Goi) are heathen without rights and they are entitled to own them as slaves; that it is no crime to steal from them, to lie to them and to murder them. In fact, that these are commendable acts if they stand in the way of their ambition. These purposes are clearly revealed in their Talmud and Protocols, the distribution of which they suppress.

## 8.

## IS HARRY SOLOMON TRUMAN

# A COMMUNIST?

*“It is important, likewise, that the habit of thinking, in a free country, should inspire caution in those intrusted [sic] with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it, which predominates in the human heart, is sufficient to satisfy us of the truth of this position.*

*--Washington's Farewell Address.*

President Truman was a protege of the late Boss Pendergast of Kansas City who elected him Vice President. His business experience has been limited to a haberdashery store with a Jew partner, one Jacobson, with whom he failed. He appears to know little about political economy or our national constitution.

He must be given credit for some improvement over the Roosevelt administration. He dismissed the Zionist leader Henry Morgenthau and a few communists. Much was expected of him by the American people because of his alleged early farm training and his senate record, but he failed them.

He had the choice of reversing the Roosevelt administration and thereby saving America or of continuing Roosevelt's destructive communistic program, and he chose the latter route. He permitted communists to remain in the State, War and Navy Departments and numerous bureaus and to rule America through them. He has sought to extend this rule despite the fact that every industry in America and the people of America, except the reds and pinks, want relief from it.

President Truman's first message to Congress was the Congress of Industrial Organizations (CIO) communist program in its entirety. Not one

of his recommendations was ever advocated by any president prior to the Roosevelt regime, nor advocated by the democratic party prior to the election of Roosevelt, nor by any other party except the communist party. They are not democratic doctrine; they are communism pure and simple. They are advocated by the communists for the purpose of communizing America, and if adopted by the Congress would have that effect.

## COMMUNISTIC GOVERNMENT

Whether President Truman knows it or not, the communists know that people can not pay taxes unless permitted to make profits, and to the extent that their profits are reduced taxes will be reduced. They know that deflation means general bankruptcy of the people, and provides a fertile ground for communism. They know that deficit spending will mean higher and higher taxes and general bankruptcy. They know that high taxes will discourage private enterprise and pave the way for government ownership. They know that we can not pay our increased expenses of government at the pre-war price level. They know that agriculture and industry can not and will not produce unless allowed a profit.

I prefer to think that President Truman does not know these things. He does know, however, that his bureaus are infested with communists, who, like maggots, gnaw at the vitals our government ceaselessly and relentlessly, in darkness as well as daylight. He knows also that Hillman, Ruether, Frankstein, Thomas and others were responsible for the strikes that afflicted us, brought them about for communizing the government; and he did nothing about it.

The Congress is not blameless. The House passed a bill, the Smith bill, with teeth in it, that the Senate diluted and polluted with the Connally amendment constitution the Smith-Connally Act. This bill as amended was precisely what the communists wanted. It provided that the penalty for strikes was for the government to take over and operate the stricken industry.

The Case bill would have given relief. It was opposed by the communists and vetoed by the President. He argued in his lengthy veto message that the bill did not remove the causes of labor unrest and strikes. It must be admitted that this is true. There are two causes, viz: (1) Communist labor leaders who seek to communize America; and (2) OPA which seeks to maintain low prices despite increased cost of production. The obvious remedy for the one is to deport the communists; for the other it is to abolish the OPA, which the President in his veto message urged Congress to retain.

The House of Representatives failed to override his veto by a margin of only five votes--every communist and socialist and a few New Dealers voting to sustain it. The President determined this vital issue in favor of the communists and against the American people. Why? Was it because he imagined himself wiser than the Congress? Was it because he is himself a communist and wanted to promote communism? Was it because he is merely a politician who was seeking re-election and the communists' support and slush fund? Why? There must have been some reason. What was it?

It was at the instance of the Zionists and Communists that President Truman has intermeddled in the political affairs of Spain and Argentina. It was at their instance that he appointed as Chief of Staff the self-glorifying Ike Eisenhower, a Roosevelt pet, over the able and modest gentile General MacArthur who was entitled to the position by reason of his seniority and his great ability; and for the promotion of the incompetent Mark Clark, another Roosevelt pet.

Whether Eisenhower is a communist or not, he is not the man to command our armed forces in a war with Russia. He failed in the Normandy campaign and was supplanted as Commander in Europe by General Montgomery. He imposed the destructive Morgenthau armistice terms on the people of Germany and demoted General Patton because of his humanity to them.

There can be no compromise with communism, for the communists seek to destroy our government. They are traitors and public enemies and should be dealt with as such. They should be banished without respect to race or religion or their station in life,--whether banker, lawyer, teacher or member of the Supreme Court or of Congress. Send them to Russia where they will find congenial company and government.

### TRUMAN DICTATORSHIP

President Truman has utterly failed to support and defend the Constitution and the law, as it was his sworn duty to do. He seeks to convert the office of President into a dictatorship and has usurped the powers of a dictator in violation of our national constitution.

To mention only a couple of instances: Congress made a large appropriation for river and harbor work which he approved. He cancelled this appropriation after the adjournment of Congress and thereafter restored it in part on the petition of several southern senators. As late as December 20, 1946, he ordered four of our liberty ships to go to Europe to bring Jewish refugees to this country in violation of our immigration laws. There can be no pretext that these acts are justified by any war emergency or any legal authority. They are the acts of a dictator in flagrant violation of law.

It has been said of Truman that he is "not smart enough to be a politician nor big enough to be a statesman." He was misguided by Hennegan and his other friends. He undertook to carry out the Roosevelt program without having the lying duplicity of Roosevelt. But despite his limitations he is an improvement over Roosevelt both as a man and a President.

### CIRCUMSTANTIAL EVIDENCE

In his message to Congress President Truman sought the restoration of the Office of Price Administration (O.P.A.) and the powers of a dictator. He continued to appoint reds, pinks and yellows to responsible positions. He appointed Charles Luckman, Borish Shishkin, Franklin P. Graham and other reds and pinks to his "civil rights" committee; and on his U.N.E.S.C.O. committee he appointed Leon Henderson, Chester Bowles, Paul Porter and other pinks or reds. He appointed an Atomic Commission of socialists and communists, viz., David Lilienthal, Strauss, Bacher, Pike, Waymack and Wilson.

He appointed a commission of 28 members on "higher education" with Geo. F. Zook "president of the American Council on Education" as chairman, and 23 other reds or pinks. This commission filed its first report denouncing the segregation of Negroes and whites in 17 states, and also the quota system by which many colleges deny admission of certain minorities, particularly Negroes and Jews. There were only four dissenting votes, all from professors in the southern states. The purpose of this commission appears to have been to federalize our school system and to destroy our segregation laws. What a knack the President has for selecting reds, pinks, and yellows for his commissions and bureaus!

The purposes of these commissions appear to be identical. They were obviously appointed for political and propaganda purposes and to bring about the repeal of the state poll tax and segregation laws, and the enactment by Congress of the Fair Employment Practice Committee (FEPC). The fundamental purpose is communism. It is to degrade the white Christian race to the level of that of the Asiatic and African races. It is to enable the Negroes and communists to control the elections in the South, and to enable the communists to take over our government.

These are communist purposes and are designed to promote the overthrow of our government. The hope of our country is a political coalition of the South and West where white Christians predominate; and not in the effete East where the Jew and Negro control the ocorrupt political organizations.

President Truman is also responsible for the decisions of the Potsdam conference where he agreed to the dismemberment of Germany and the removal of populations, creating the problem of “displaced persons” whom we have had to support at a cost of hundreds of millions of dollars. Apparently he now seeks to restore Germany, but he can never repair the colossal injury to the innocent people who were deprived of their property and homes.

What of the United Nations which was organized to prevent war? The press reported that President Truman, through his representatives, jockeyed with the delegates and influenced a majority of them to vote for the partition of Palestine. We do not know what promises or pressure he brought to bear on them. All we know is that he got the necessary majority to approve the Zionist scheme. The hypocritical character of the United Nations is clearly revealed in its decision partitioning Palestine. Organized to prevent war it has partitioned a peaceful country, thereby creating war. Who is to fight to enforce its decisions, except America? If we entered the war on behalf of the Zionists, Russia would be certain to join the Arabs. What authority had President Truman to send our troops to Palestine to enforce the decree of the United Nations?

President Truman delivered another campaign speech in his message to Congress, January 8, 1949. Senator Taft said it was

“A global Santa Claus new deal that would lead to national bankruptcy and a totalitarian state. . . Henry (Wallace) himself will have a hard time to find anything to promise the people of this country which is not promised in this message.”

President Truman recommended a socialized health program, the nationalization of our educational system, a minimum wage scale of 75c, the repeal of the poll tax and our segregation laws and the enactment of the Fair Employment Practice Committee (FEPC); a credit of \$40 per person on income taxes for voters, which he estimated would amount to

\$3,200,000,000 and that this deficit in our revenue be collected from corporations, non-voters. Every one of these proposals was socialistic and not one of them constitutional.

He endorsed the United Nations, proclaimed against inflation and recommended that Congress immediately appropriate \$6,800,000,000 for European recovery. He proposed that we admit displaced persons, the most of whom are communist Jews that we are supporting and that other countries refuse to accept (Congressional Record, Jan. 7, 1949, p. 35-38).

### ADDITIONAL CIRCUMSTANCES

President Truman joined the bolsheviks in recognizing the Zionist State of Israeli while it was at war with the Arabs and the British. He brought pressure to bear on other countries, including the British, to influence them to recognize this government, using the Marshall Plan and our resources for that purpose. He knew that the bolsheviks had been supplying the Zionists with Officers and ammunition. He knew that the coalition of the bolsheviks and Zionists would give the bolsheviks a great advantage in any war they choose to wage, and that they are on the war-path.

He continued the socialistic, communistic Roosevelt program; indeed, he was selected by Roosevelt and the communist Sidney Hillman for that purpose. He continued the control of our government by Zionist Wall Street and Felix Frankfurter. He submitted a socialist-communist program in his first message of the 81st Congress. He appointed as Secretary of State, Dean Acheson, an associate and intimate friend of the communist Hiss brothers and a disciple of Frankfurter. He sought to belittle and destroy the Committee on Un-American Activities because it has exposed communist spies in our government. He defended David Lilienthal when he was charged with incompetency and treachery.

Wm. Z. Foster, Eugene Dennis, secretary of the communist party, and the communist leaders of Europe, publicly announced that in a war between the United States and Russia, engineered by Wall Street, that they would help Russia. [It is a cinch that if we have war with Russia it will be initiated and directed by Zionist Wall Street; in fact, the way is being prepared for it.] President Truman promptly and properly denounced them as traitors but he did nothing more about it. They voiced the sentiment of every communist in America and the Truman administration does nothing about them except talk.

In the approaching war with Russia, every communist will be founded on the side of the bolsheviks. They will cripple our industries and our railroads and shipping with strikes, and yet the Truman administration has urged the repeal of the Taft-Hartly act which would give them a free hand. Why? There can be no explanation except that the President is in sympathy with their program and wishes to promote socialism and communism.

What explanation can there be for the President's support of the criminal Zionist invasion of Palestine when he knows that in a war between the bolsheviks and our country the Zionists of Palestine would take the part of Russia? This invasion was a diabolical unprovoked and cold-blooded assault upon a peaceful people to rob them of their property. It was for the purpose of enriching the Zionists, promoting communists and establishing a World Zionist Empire.

What excuse can President Truman offer for double crossing the National Government of China and for his threat to move General MacArthur and his troops from Japan? General MacArthur stands as the greatest bulwark against communist invasion of Asia and probably our own country. He is our best prospect of saving Asia and the world from communism. His removal would promote the Zionist World Empire; that is the necessary, if not intended, result.

President Truman has continued to prosecute the Nuremberg trials when we need the assistance of the Germans to rescue Europe from

communism; he continues to be guided by the Zionists Felix Frankfurter, Sam Rosenman and David Niles and has taken no action to purge his administration of well known communists; he seeks to bankrupt us and our government by deflation, excessive taxation and extravagant spending; he seeks to socialize us through his bureaus and farm program.

There can be no reasonable doubt about the fact that President Truman is either a socialist or a communist. Practically, it is of small importance whether he is a socialist or a communist, for socialism must have a dictatorship to make people work; and communism and socialism, as far as enterprise and individual rights and constitutional government are concerned are one and the same. He aspires to be a dictator as did President Roosevelt. Both of them were selected by the Zionists for that purpose.

## TRUMAN PLANS TO BANKRUPT AMERICA

Deflation is on the way. It was initiated by the contraction of currency and credit by the Federal Reserve system, as were the deflations of 1920, 1930, and 1937. It has brought about a contraction in prices, but wages have not yet been reduced. The poor, selfish, ignorant communists will get their “cheap cost of living” but they will have no money with which to buy.

President Truman and Vice President Barclay and Speaker Rayburn have taken good care of themselves. They had their salaries practically doubled promptly after Congress convened, by a bi-partisan vote. It was one bill Mr. Truman did not veto.

While the President and Democratic party are primarily responsible for this deflation, they are not wholly so. It is the program of the communists and of Zionist Wall Street, and of both the democratic and republican parties. It is the program of the Zionists to destroy our constitutional form of government and establish a socialistic state and a dictatorship, for socialism cannot prosper without bureaucracy and a dictator. People will not work except for love of gain or fear of punishment.

The bolsheviks have prophesied deflation; they have simply been biding their time until it came about. It is a part of their plan of conquering America and of destroying Christian civilization. The press and radio informs us that the British are alarmed over the situation, fearing that it would mean the abandonment of the Marshall Plan and consequent British deflation. Well, they would likely mean the abandonment of the Atlantic Alliance and the bolshevism of Europe, Asia, and the Americas. It, together with reciprocal trade agreements and the destruction of our protective tariffs, would bankrupt America. The men who are responsible are traitors and they should be prosecuted and punished as such.

In his great speech opposing the Truman socialist educational bill, Senator Byrd of Virginia said:

“Mr. President, all I shall say at this time will be in the nature of an analysis of the cause and effect of the Federal fiscal situation in the present and foreseeable future, which may be summarized as follows on a receipt and expenditure basis:

**Fiscal Year Ending June 30, 1949:**

Income	\$39,500,000,000
Expenditures	40,300,000,000
<b>Deficit</b>	<b>800,000,000</b>

**Fiscal Year Ending June 30, 1950:**

Income	40,900,000,000
Expenditures	44,300,000,000
<b>Deficit</b>	<b>3,400,000,000</b>

**Fiscal Year Ending June 30, 1951:**

Income	40,900,000,000
Expenditures	47,400,000,000
<b>Deficit</b>	<b>6,500,000,000</b>

**(All the figures above are exclusive of refunds.)**

“It is important to note parenthetically that these estimates do not include either expenditure or revenue figures incident to the social-security programs which are tied to pay-roll taxes and operate through trust funds outside the regular general fund budget. These trust fund operations which, as a rule, do not show in the regular Federal budget are becoming increasingly significant in Federal finances and in assessments on individuals. They would be tremendous if the proposed socialized medicine program were adopted....

“I emphasize that in estimating these deficits my estimates are based upon the continuation of the present high level of prosperity. If it declines, the anticipated deficits will be greatly increased...The figures which I am giving the Senate today are based upon a Receipts and Expenditure basis within each current year....

“The gravity of the fiscal situation confronting us is emphasized by experts of the Joint Committee on Internal Revenue Taxation who estimate that even a 10 percent recession in the aggregate personal income would result in a

loss of \$5,000,000,000 in tax revenue. Should this occur, this must be added to the estimates of deficits which I have previously given, because I have said that I have estimated the revenue on the basis of a continuation of the level when the President prepared the budget last November or December....Remember that taxes imposed on a declining business level may accelerate a mere recession in business to a first class depression” (Congressional Record, May 6, 1949, p. 5943).

President Truman knows that the estimates of Senator Byrd are substantially true. He may know that every 10% reduction in our national income means a further deficit of about five billion dollars and that continued deflation means national bankruptcy, and yet he continues to deflate and to propose and recommend further appropriations. He knows that the bolsheviks desire to conquer this country and that they are only awaiting a favorable opportunity to make the attack; and that a bankrupt America will offer the opportunity. Zionist Wall Street also knows that these things are true.

### CONCLUSIVE EVIDENCE

There are only two ways of defeating us in the approaching war with Russia, viz: (1) By giving the bolsheviks the oil and wealth of Palestine and alienating the 400,000,000 Arabs who want to be our friends; (2) by deflation and bankruptcy. And President Truman has adopted both of them. It was, no doubt, the knowledge of this treachery that caused the suicide of James Forrestal, and not the lies of Pearson and Winchell. The President had placed upon him the responsibility of defending our country and then undermined him.

U.S. Secretary of Defense, James Forrestal

As serious as is the loss of the oil of Palestine and of Mohammedan support, it is not comparable to bankruptcy and deflation. They will make it impossible to expand our production or help our Allies. They will involve strikes and probably insurrection. They are the trump cards that the Politburo have been waiting and praying for, and have counted upon. Stalin could not do more to destroy America than Truman and Zionist Wall Street will accomplish.

We cannot excuse this on the ground of ignorance, which is no legal or moral excuse. We are conclusively presumed to intend the consequences of our acts. But apart from this, Zionist Wall Street knows exactly what they want and how to get it; and the President has his chosen Advisory Council of experts viz: Leon Kesserling, et al, who know. It is the conquest of America by the bolsheviks and it *high treason*. The President seeks the restoration of OPA and of bureaucracy, and the power of a dictator.

It is within the power of Congress to save this country from deflation and ruin; it cannot be done by trimming expenses and increasing taxes. We

are too far gone for these homeopathic remedies that will aggravate the disease instead of curing it. It can only be done, and that quickly, by inflation and reduction of taxes. Pay money into circulation, cancel *pro tanto* bonds and thereby restore our solvency and establish a price and wage level that will enable people to pay their debts and taxes. Reduce taxes and thereby offer some inducement to enterprise.

## 9. RESTITUTION

*Execute the traitors and banish the communists, and thereby rescue the world from communism and restore our solvency.*

Section 3 of Article III of our National Constitution reads as follows:

Treason defined; conviction of.--1. Treason against the United States, shall consist of levying war against them, or, in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.

The atomic bomb is evidently the most destructive engine of war that has been discovered. Its use can be justified only in defense, or to prevent war. It is in the same category with poison, which has been outlawed by international agreement. At the moment we are probably in exclusive possession of the atomic bomb, the plants for its manufacture and the secret process, but that may not long be true. The bolsheviks may acquire the process, if they have not already done so.

We are now in a position to dictate to the world, instead of Stalin. We should employ military commissions and troops to distribute relief to the war-stricken people, including those of Germany and Italy.

We should compel the bolsheviks to disgorge Finland, Latvia, Estonia, Poland, Austria, Yugoslavia, Hungary, Romania, Bulgaria and other countries they have absorbed, and permit these countries to establish their own governments through elections. It is up to us whether the people of Europe shall be independent free men or bolshevik slaves.

### OUR RESPONSIBILITY

Our government is at least partially responsible for the war, for the Russian victory and the extension of bolshevism throughout Europe. It is our duty to rescue Christian European countries from the bolsheviks and restore order. Moreover, we have the unemployed troops by which this can be accomplished.

I am and always have been an isolationist, but I recognize that we have now the duty of protecting the world against the use of the atomic bomb in war, and or preserving the peace of the world. The bomb is our invention and we are responsible for it and its use. If other countries should acquire it they would not dare attack us in the face of certain destruction.

### CAN USE ATOMIC BOMB FOR FREEDOM OR SLAVERY

The atomic bomb will be used for the support of bolshevik slavery, or liberty. The responsibility is ours to make the decision. The San Francisco charter is obsolete; and navies and armies are largely so. It has been proposed that we turn the secret of this bomb over to the World Security Council. If this is done it will mean the enslavement of the people of the

world. There are traitors in our government who would not hesitate to do it. Indeed, they may already have done so.

Mr. Churchill truthfully state in his Fulton, Missouri, speech that it was the purpose of the Soviet Union to communize the world, and that they would not keep their treaties and agreements. He said of the Russian Government,

“What they desire is the fruits of war and the indefinite expansion of the Russian government.”

They seek the overthrow of our own government and are spending money for that purpose through a Delaware corporation (Congressional Record, March 15, 1946, p. 2369), while we are extending them relief and coddling them and begging them to cooperate with us.

We should demand of them that they get out of every country that they have absorbed as a result of this war, or use the atomic bomb until this outlaw Soviet government is completely destroyed. We should attack the Russian monster while we can conquer it and not wait, for it is certain to attack us as soon as it thinks it can conquer us.

### BOLSHEVIKS ARE THIEVES, LIARS AND MURDERERS

There is no use in making an agreement with the bolsheviks for they would only abide by it so long as it was to their advantage to do so. They got out of Iran in fear of the atomic bomb but they will only stay out until they think they can return and hold it. The Soviet State is an outlaw government that maintains itself by force and that seeks to rule the world.

We should demand that this government abdicate, or bomb the cities of Russia until it is destroyed. We owe this duty to the people of the world, for we have put them at the mercy of this monster. We owe it to our

Christian religion and to our civilization, for it threatens both. Our own self-preservation demands it.

As wanton and cruel and inhuman as atomic warfare is, we have no alternative except to destroy the savage beasts who rule Russia and thereby relieve the people of Russia of their oppression, and the world of their menace. It is far better than military training, drafting the youth of America, and our military occupation of Europe and Asia, and would probably save lives and suffering in the long run. It would have been better to try our bombs out on the Kremlin than to experiment on 99 of our ships at an estimated cost of two billion dollars of the tax-payers money.

Only fear of the atomic bomb will prevent the Russians from capturing the Mosul oil fields and Turkey with the Straits of Dardanelles, and Palestine,--for they are all-important to the bolshevik and Zionist World Empires. They will then establish the Zionist World Empire in Palestine as projected in "The Protocols of the Learned Elders of Zion."

It has been a cruel and barbarous war and cruel and barbarous peace; a Zionist war and a Zionist peace. Chaim Weismann, the former directing head of Zionism, testified before the British-American Palestine Commission that the Zionists will have lost the war if they lose Palestine. What a pity! Palestine was one of their objectives of the second world war as well as the first one.

## UNITED NATIONS

I repeat for emphasis that the UN is a Zionist scheme for a world empire and not for the preservation of peace. It is only a step in that direction; it can and probably will be strengthened and expanded; such is the hope of the Zionists. As a peace agency it is a spectacular and sanctimonious fraud. We do not need it for our protection and it can not afford protection to others except through us. Moreover, it is in plain violation of

our national constitution, which invests Congress with the exclusive power to declare war.

What could the United Nations have done to prevent the economic war on Germany, declared by the Zionists at Amsterdam? What could it have done to prevent the conspiracy between Roosevelt and Churchill, and the alleged sneak attack on Pearl Harbor? What can it do to stop the war now being waged by the Zionists for Palestine? What can it do to stop Russian aggression?

If Russian aggression is stopped, it will be through us and the use or threatened use of our atomic bomb. Under our constitution it is for Congress to determine whether we shall stop Russia, and not the President of the United Nations. The atomic bomb is our property and Congress is its custodian. With all of its imperfections Congress is the safest custodian the world can have. The President and the other internationalists and the communists seek to transfer to the United Nations the power to declare war, and the control of the atomic bomb.

The President appointed a commission of five to the United Nations to handle our atomic bomb. They were all internationalists and most of them Jews, with Bernard Baruch as chairman. Baruch resigned and the President appointed the Jew, David Lilienthal. Mr. Truman appointed as delegates to the United Nations, Mrs. Eleanor Roosevelt; Edward Stettinius, a member of the Rothschild agency of Morgan & Co.; and Senators Connally and Vandenburg. The President proposes to impart the atomic bomb secret and the security of the world to the commission and the United Nations. Russia will get the secret and will use it, and there is nothing the United Nations can do about it. Who of us prefer the President's bomb commission to the United Nations to the American Congress.

Here is a picture of his commission:

The First Commission. President Truman appointed David E. Lilienthal, former head of the Tennessee Valley Authority, as the first chairman of the Atomic Energy Commission (center). Serving with Lilienthal on the Commission were left to right: William W. Waymack, Lewis L. Strauss, Robert F. Bacher, and Sumner T. Pike.

*What a bunch of smug-looking crooks; at least two of them are Zionist communists. This picture was published in the magazine Time of April 21, 1947, soon after confirmation of the commission by the senate, and hence the smug expression. They resemble the cat that swallowed the canary. These self-satisfied gentlemen hold the destiny of the world in the hollow of their hands.*

There is remedy except the destruction of the bolshevik government. It is not likely to abdicate nor to liberate conquered countries

upon a mere threat. It must be destroyed, and the sooner the better. There can be no peace or world security until this is done. It is not conceivable that Mr. Stalin will wreck the United Nations, for he and the communists want it; but they want it on their own terms and will have it that way or not at all.

## ATOMIC BOMB

We have the power through the atomic bomb, to control the world. It is our responsibility. We should not shirk it nor seek to evade or transfer it to any other agency or government. The atomic bomb has made useless the United Nations and a huge navy and standing army and the draft, and it can prevent war and should be used only for that purpose; the mere threat of its use would ordinarily be sufficient. Nor do we need an arm to police the crushed and defenseless and starving Germans, Italians and Japanese; but we may need one to occupy Russia and protect us from Russian aggression.

The New Dealers, Socialists, One Worlders and Communists have bankrupted our country for the purpose of accomplishing their reforms and they should be made to pay the damages. This will of itself accomplish some of their reforms, for it will involve the government taking over the railroads and monopolies and huge financial institutions now controlled by J.P. Morgan & Co., and Kuhn, Loeb & Co. It will mean the cancellation of the bonds held by their financial institutions. The remnant of the bonds should be cancelled by issuing currency in payment of them.

We have given under the pretense of lend-lease the huge sum of \$50,596,698,000, substantially all of which has been given to the Russians and the British. We have already cancelled the British part of it and promised to give in the form of a loan an additional sum of \$3,350,000,000. This is only a fraction of the cost of this made world enterprise as compared with the loss of lives and the waste of our resources. It is not just that this huge burden be placed upon American labor and industry; it will absorb their earnings for generations to come. It should be placed on the men who brought this disaster upon us if they can be located; and that is not a difficult job. Fortunately they hold most of our bonds and railroads, industries and huge financial institutions and can be made to pay. Let us have a real Nuremberg Trial, collect damages and punish the guilty.

### RESTORE OUR SOLVENCY

Our government was practically out of debt when the world empire builders took it over. Make them restore its solvency. It is not a case of innocent bad judgment but one of deliberate design to wreck the government, enslave the people and to subordinate it and them to a world super-government. It was a criminal conspiracy for which they are justly and legally liable. They will of course howl about their constitutional rights, but they are not entitled to the protection of a constitution they seek to destroy.

We have an admitted bonded debt of \$252,000,000,000, the interest on which, at 2%, is \$5,000,000,000. I do not know the indebtedness of the RFC and other government bureaus, all of which are unconstitutional, but it is probably 30 to 40 billion dollars. This is approximately our estimated wealth. There are only two methods by which we can get relief from this huge debt, one is in the manner suggested and the other by such a high rate of taxation as to stifle enterprise and the employment of labor.

The labor organizations seek to establish and maintain cheap prices and high wages. It cannot be done. Prices and wages go together and the two measure the value of the dollar. It is impossible to have inflated wages and deflated prices. If we have high prices and wages we have inflation; if we have cheap prices and wages, we have deflation. They are created by and based on the volume of money in circulation. We can pay taxes and debts with inflation but not with deflation.

It is not just that his huge government debt be imposed on industry and labor by excessive taxation. It will stifle industry and enslave labor. Moreover, these conspirators are responsible for drafting our young men into the army and navy, for the death and wounding of about one million of them, for the maintenance of armies in foreign countries at an annual cost of about one billion dollars, for the 50 billion dollars of lend-lease, and for the bankrupt loans made to England, France and other countries. We should create an impartial tribunal to try them and if found guilty make them pay for their crimes.

We have precedents in the Nuremberg court and trial, the penalty imposed by Judge Goldsborough against the Miners Union, and as authority the common law. Under the common law anyone who seeks to overturn the government is a rebel and traitor and is punishable by death with confiscation of property, or banishment with such confiscation. Every communist is a traitor for he seeks to overturn our government by force if necessary. The strikes to which we have been subjected were as a rule instigated by communists for the purpose of promoting communism and injuring the people and the government. We will never have domestic

peace so long as we permit these lazy, mischievous troublemakers to remain in our country.

## ENLARGE POWERS OF UN-AMERICAN ACTIVITIES COMMITTEE

We have such a committee that has heard evidence against them, the Woods (Un-American Activities) Committee, but it is without power to act. It can only report to Congress and that is the end of it. The trial and conviction of the traitors will establish domestic peace, and of the conspirators will establish world peace without United Nations organizations or the Atlantic Pact. They were the traitors who started the war and who financed and promoted the Zionist war against the British.

This committee announced that it would investigate the Hollywood communists, and the communists in our educational system and in our government. More power to them! Let them extend the investigation to the communist international bankers, press and radio. They have investigated the communist organization in America headed by Gerhart Eisler, an Austrian Jew. They established the fact that this organization is financed by the Soviet government, that it seeks to overthrow our government, that it has been in operation since the war and prior thereto; and that during that entire period they have been spying on our government and seeking to obtain our war secrets.

They also have been spying on the Canadian government. There can be no doubt about the official character of their spy system in Canada for its headquarters was in the Russian embassy. It was a cipher clerk of this embassy, Igor Gouzenko, who, at the risk of his life, disclosed the cable between the Soviet government and its chief of military intelligence, Col. Nicolai Zobotin, who had his office in the embassy. It appeared from these cables that for four years the bolsheviks, through spies and by bribery, sought to obtain the secret of our atomic bomb and other war weapons, and that they partially succeeded. The spies and conspirators were prosecuted by the Canadian government, and tried and convicted.

And yet in the face of these official revelations we have traitors who would freely give the Russians all of the information they seek to obtain through spies and by bribery, and we are negotiating with this treacherous government about disarmament and a German peace treaty. Former Secretary of State Marshall had an appointment with them in Moscow in March, 1947, for that purpose. Suppose he had reached an agreement with them. Is there anyone so simple-minded as to believe that they would lay down their arms and scrap their war machine and not build plants for the manufacture of bombs? Suppose they agreed to inspection. What sort of an inspection could the United Nations make of such a vast country as Russia, covering one-fourth of the globe, much of which is inaccessible and uninhabited? Suppose the inspectors should find a plant, how could the United Nations compel the bolsheviks to scrap it, and particularly after they had completed the plant and had the bomb?

Give the Un-American Activities Committee authority to banish the members of the numerous organizations that it finds to be communistic, and who are active communists seeking the overthrow of our government through deceptive organizations and clandestinely. Give it power to investigate the illegal entry of refugees and to deport them. There should be no appeal from their judgment. Aliens and public enemies have no constitutional rights.

#### APPROPRIATE THE MINERALS OF THE DEAD SEA

The Dead Sea and its fabulous mineral wealth is ours by right of conquest. We wrested it from the Sultan of Turkey in the First World War for we won the war and thereby prolonged the life of the British Empire. It did not belong to the British, who gave it to the Rothschilds and the Zionists and who only had a mandate to govern the country. It does not belong to the Zionists whose title rests on a gift from the British.

It belongs to the allies, who won the war by the ancient right of conquest. "To the victor belong the spoils." It is the title by which the Turks acquired

it and by which we acquired America. We have the same title to all of the oil fields of former Turkish countries valued at a hundred billion dollars. In equity we have the principal interest because we won the war. But we should recognize the equities of the oil companies that have developed the property. It is far better for the government to appropriate this oil, than that of the tide lands belonging to the states.

Moreover, Lord Balfour did not promise Lord Rothschild the minerals of the Dead Sea. He only promised Palestine as a *Jewish home* subject to the vested interest of the Arabs. The minerals of the Dead Sea can not be used as a home and the promise can not be construed to include them. The property then belonged to the Turks and its transfer could only be effective in case of victory. Lord Balfour could not make the gift without the consent of the allies. It was only a personal deal between these two British lords, as on its face it appears to be.

If the Dead Sea and the nearby oil fields have one tenth of the value they are reported to have, it will be sufficient to reimburse us for the expense of the two wars and the costs and extravagance of the Roosevelt and Truman administrations. It will rescue us and our posterity from debt slavery. In fact, our freedom and the freedom of the peoples of the world depends to some extent on whether we get the wealth of the Dead Sea, or the Zionist-Communists get it.

## BANISH THE ZIONISTS

We should banish every Jew who has entered our country since the first world war.

We know that the Jewish rabbis teach the Talmud. We know that the rabbis are the Jews' teachers and that they teach socialism. We know that the greater part of the Talmud was written by rabbis during Jewish captivity in Babylon. We know that the Talmud teaches that the Jews are the "chosen" race and that all other races are their inferiors and have no

rights; and we know that they seek to subordinate our government to a super state.

We know that the leaders of the Jewish race hold world congresses at which they plan their empire, and that their Protocols represent their plan of establishing this empire. We know that since 1897 when the Protocols were adopted the Zionists have ceaselessly and relentlessly pursued the plan they outline. We also know that the Zionist Jews have conquered Russia and that through Russia they seek to conquer the world. We know that Russia governed by a Zionist politburo that is both imperialistic and communistic.

### WALL STREET ZIONIST JEWS

We know that the Zionist Jews of Wall Street control our banking system, our railroads, our principal industries and our press. We know that the Zionist Jews control our price and wage level, and our economy; that we can be prosperous only to the extent that they permit. We know that Zionist Communists control the freedom of the press and that through the power of their money and press they influence our national elections.

*This is an intolerable situation and must be corrected.*

*We must free ourselves and our posterity of this selfish power.*

*The Wall Street traitors should be tried and executed and all of the communists banished.*

I submit that the foregoing statement of facts establishes the allegations of my petition;

“WHEREFORE, I pray you to

## TRY THE TRAITORS

We are past the time of coddling and of half measures. Our government, our religion, our liberty, our property, and our Christian civilization are in imminent peril. We must adopt such measures as are necessary to save them. This is no time for quibbling and technicalities of the law. No traitor and public enemy is entitled to constitutional protection.

- (1) We should begin with the United States Supreme Court, for it is the citadel of our liberties. It's been stacked since Roosevelt with socialists and communists for the purpose of destroying our constitution, and it has largely accomplished that purpose. Their decisions are sufficient proof of their guilt.
- (2) Wherever the Jews are in the majority or hold the balance of power they elect a Jew Congressman. The majority of Congressmen from New York City and Chicago are Jew socialists or communists. They should be removed instantly. Congress is the judge of the fitness of its members and has the unquestioned power, and their record on the various socialist measures submitted by Roosevelt and Truman is sufficient proof. Moreover, they have surrendered their American citizenship to the Jewish nation.
- (3) J. P. Morgan & Co., Kuhn, Loeb & Co., Lehman & Co, [and individual Zionists, i.e. Rothschild, Soros and accomplices] should be prosecuted and tried as traitors, and if found guilty should be executed and their property confiscated.
- (4) A tribunal should be established for the purpose of trying traitors, whose decision should be final.
- (5) All communists and all descendants of Jewish immigrants since the first world war should be banished and their property confiscated.
- (6) We should repeal the Warburg amendment to the Federal Reserve act and issue a sufficient volume of money to enable people to pay their debts and taxes.
- (7) We should renounce our membership in the United Nations and its subsidiaries and in the Atlantic Pact, and restore our ancient policy of isolation and the Monroe Doctrine.

- (8) We should disfranchise the alien, and limit income tax levies, and should take prompt steps to amend our Constitution to accomplish these purposes.
- (9) We should confiscate the funds of the Rockefeller, Carnegie, Filene, Marshall and other foundations that promote socialism.

These, or similar reforms, are necessary for the preservation of our freedom, our religion and our government.

Respectfully submitted,

GEO. W. ARMSTRONG
